Our mission

The **ESC Working Group on Cardiovascular Magnetic Resonance** aims at being the representative trans-national scientific organisation for physicians, scientists, and technologists who work in the field of cardiovascular magnetic resonance (CMR). The purposes of the Working Group on CMR are to stimulate and disseminate the knowledge and the use of CMR through education, quality control, research, and training.

Our projects & initiatives

Cardiovascular
Magnetic Resonance
ESC Working Group

The first European Cardiovascular Magnetic Resonance (EUROCMR) registry.

Suspected CAD: by stress ischemia (high-dose dobutamine CMR / adenosine stress perfusion), and scar detection (delayed enhancement).

HCM SCD: Myocardial scarring detected by contrast-enhanced CMR

Essential Reading: The CMR Booklet

CMR-Update is a compact and comprehensive booklet covering all aspects of CMR. Written by 19 well-known CMR experts, the booklet is essential reading for both the general cardiologist and the CMR expert as it contains illustrative case studies, an indications list for all current CMR applications as well as CMR protocols.

Accreditation: join **the EuroCMR exam** during our annual EUROCMR meeting to obtain the Certificate of EuroCMR Expert

**7th Annual Meeting
on EuroCMR
May 21-23, 2009
Athens, Greece**
