

ANNUAL SCIENTIFIC REPORT 2002 - 2003 ESC WORKING GROUP ON CARDIOVASCULAR MAGNETIC RESONANCE (#26)

- *Statement of the objectives of the WG*

- to promote and organise research in the field of Cardiovascular Magnetic Resonance
- to gather and exchange information regarding research and related activities within the Working Group and of interest to members of the Working Group
- to contribute to the organisation and preparation of the annual ESC Congress, and to participate and support other scientific meetings and symposia
- to establish appropriate recommendations for the ESC regarding the field of Cardiovascular Magnetic Resonance
- to organise teaching workshops on suitable topics
- to arrange Task Forces to discuss issues of contemporary importance to the Working Group and publish appropriate guidelines and recommendations
- to design and coordinate multi-centre research trials in Magnetic Resonance in Cardiology
- to hold regular meetings of the Working Group (i.e. annual EuroCMR meeting)

- # Sessions organised or co-organised at ESC annual congress: 4

- *Other activities*

EuroCMR June 5-7, 2003, Leuven, Belgium (150 participants)

Organisation of CMR exam June 7, 2003

Nucleus meetings : Octobre, December 2002, June 2003

Participation in EuroEcho, December 2002

- *Membership* of WG: 148

- Registries – Surveys: -

- *Study groups*

- Indications paper: to be published in JCMR – EHJ: updating clinical indications for CMR
- Accreditation guidelines in coordination with SCMR

Respectfully submitted by Frank Rademakers, Chairman
