Date: Friday, 28 - November 2008 Teaching Course: Adult Congenital Cardiac Disease

Program

1st Day		
08.15- 08.30	P. Trigo-Trindade, Zürich for ESC, A. Szatmari, Budapest for AEPC Ö. Oto, Izmir	Introduction
08.30 - 08.55	U. Bauer, Berlin	Competence Network for Congenital Heart Defects
I.) „The adult patient with“ (Natural history, pathoanatomy, pathophysiology, diagnosis, treatment, residua/sequelae).		
09.00 - 09.25	E. Jokinen, Helsinki	Left ventricular outflow obstruction
09.30 - 09.55	B. Mulder, Amsterdam	Aortic coarctation
10.00 - 10.25	H. Gabriel, Wien	Right ventricular outflow obstruction
10.30 - 11.00	Break	
11.00 - 11.25	E. Jokinen, Helsinki	Atrial septal defect
11.30 - 11.55	A. Szatmari, Budapest	Ventricular septal defect
12.00 - 12.25	F. Meijboom, Nijmegen	Atrio-Ventricular septal defect
12.30 - 12.55	I. Schulze-Neick, London	Patent ductus arteriosus
13.00 - 14.00	Break	
14.00 - 14.25	P. Ewert, Berlin	Tetralogy of Fallot
14.30 - 14.55	M. Hofbeck, Tübingen	Pulmonary atresia with ventricular septal defect
15.00 - 15.25	A. Eicken, München	Ebstein's anomaly
15.30 - 15.55	F. Meijboom, Nijmegen	Complete Transposition
16.00 - 16.25	Break	
16.30 - 16.55	M. Hofbeck, Tübingen	Congenitally corrected transposition
17.00 - 17.25	A. Eicken, München	Univentricular Heart and Fontan circulation
17.30 - 17.55	J. Marek, London	Double outlet right ventricle
18.00 - 18.25	U. Thilen, Lund	Truncus arteriosus

Date: Saturday, 29 - November 2008 Teaching Course: Adult Congenital Cardiac Disease

Program

2nd Day		
II.) The role of modern imaging in adults with congenital cardiac disease		
09.30 - 09.55	J. Marek, London	Echocardiography
10.00 - 10.25	P. Trigo-Trindade, Zürich	CT / MRI / Scintigraphy
10.30 - 10.55	P. Ewert, Berlin	Diagnostic and therapeutical catheterization
11.00 - 11.30	Break	
III.) Specific problems in adults with congenital cardiac disease		
11.30 - 11.55	J. Deanfield, London	Unoperated adults with congenital heart disease - Selection for surgery
12.00 - 12.25	U. Thilen, Lund	Endocarditis and Endocarditis prophylaxis in ACCD
12.30 - 12.55	G. Breithardt, Münster	Coronary arteries and coronary perfusion in congenital heart disease
13.00 - 15.00	Lunch	
IV) Disorders of Rhythm and conduction in ACCD		
15.00 - 15.25	G. Breithardt, Münster	Risk assessment and prevention of sudden death in adults with congenital cardiac disease
15.30 - 15.55	A. Szatmari, Budapest	Conduction disturbances and pacing in congenital cardiac disease
16.00 - 16.25	A. Pflaumer, München	Approach to arrhythmias in adults with congenital cardiac disease
16.30 - 16.55	Break	
V) Unsolved problems in ACCD		
17.00 - 17.25	J. Deanfield, London	Treatment of right and left heart failure in adults with congenital cardiac disease: a practical approach
17.00 - 17.55	I. Schulze-Neick, London	Assessment of hemodynamics and latest strategies in the treatment of adults with pulmonary hypertension due to congenital cardiac disease
18.30 - 18.55	H. Kaemmerer, München	Pregnancy, genetic counseling and contraception in women with congenital cardiac disease
18.30 - 18.55	H. Gabriel, Wien	Sports and exercise in adult congenital cardiac disease
19.00	P. Trigo-Trindade, Zürich for ESC, A. Szatmari, Budapest for AEPC Ö. Oto, Izmir	Closing remarks
End of the Meeting		

Dear Colleagues and Friends,

It is our great pleasure and honor to invite you to participate in the 1st European Teaching Course on „Adult Congenital Cardiac Disease“ which is going to be held in Antalya, Turkey on November 28th – 29th, 2008.

This course is a joint project of the working groups „Grown-up Congenital Heart Disease“ of the European Society of Cardiology (ESC-WG GUCH) and the Association for European Paediatric Cardiology (AEPC).

The program includes topics on almost every aspect of adult congenital cardiac disease, given as state-of-the-art lectures.

The course is given for those who would like to update their knowledge on new developments in adult congenital cardiac disease, as well as for those who would

like to get a first overview about this exciting and evolving subspecialty in cardiology.

We believe the course will be attractive not only to adult or pediatric cardiologists and surgeons, but also to cardiac anesthesiologists, intensivists, neonatologists, pathologists, nurse specialists, and sonographers.

This course will be held in conjunction with the 4th Congress of „Update in Cardiology and Cardiovascular Surgery“, organized by Prof. Öztekin Oto. We are most grateful to Prof. Öztekin Oto. Only his kindness and support made this course become real. We can assure that, besides an excellent scientific meeting, you will enjoy Turkish hospitality and a stimulating atmosphere in a 5 star De Luxe Resort Hotel near Antalya.

This Congress will give an opportunity not only to share knowledge, but also to meet old friends and make new friends from European countries. The organizers once again invite you to come to Antalya, Turkey, and bring friends, colleagues, trainees, students, and family, along with you.

We are also hoping that these ESC-/AEPC-courses will become tradition and will continue in the future.

We look forward to welcoming you personally in Antalya.

H. Kaemmerer, Munich, Germany

Students	50,- Euro	150,- Euro

Hotel				
Hotel	Before September	1st 2008	After September	1st 2008
	Single Room	Double Room (per Person)	Single Room	Double Room (per Person)
Sungate Port Hotel	EUR 110,-	EUR 70,-	EUR 130,-	EUR 90,-

All details are listed in the registration form. Additional registration forms can be ordered via INTERPLAN.

Cancellation If the conference has to be cancelled by the organizer due to any unforeseen circumstances all registration fees will be refunded.

Events
Congress Venue & Date
 It is our great pleasure to announce that our meeting is held during the 4th Congress of Update in Cardiology and Cardiovascular Surgery which will take place between the dates of November 28th - December 2nd, 2008 in Sungate Port Royal Hotel in Antalya, Turkey.

Congress President:
Prof. Öztekin OTO, Izmir.

Topics
 The UCCS Congress will include an „International Academia of Interventional Cardiology“ and „International Forum of Arrhythmia“. These meetings will run with live transmissions of interventional cardiological procedures and cardiovascular operations from national & international cath-labs and ORs. Cardiac Morphology Course and other courses will also take place in their advanced versions in UCCS 2008 Congress.

For participation, additional registration is necessary.
