

	BELGRADE	NIS	SOMBOR	NOVI SAD	SUBOTICA	PANCEVO	PIROT
Saturday 19 May 2012							
14:30 16:00	Best of 2011 and 2012 - International Congresses and Papers.	Pulmonary hypertension and the right ventricle in patients with heart failure.		Heart failure with preserved ejection fraction – Update 2012 - State of the art.	Coronary heart disease in heart failure: what the clinician should know.		
Satellite				Symposia			
18:00 - 19:15				Opening Ceremony Welcome Cocktail			
Sunday 20 May 2012							
08:30 10:00	Atrial fibrillation and anticoagulation in heart failure.	Co-morbidities in heart failure: diabetes.	Valvular Disease. HFA Focus. Case based interactive session.	New therapeutic devices.	Paracrine signaling: who is talking to whom and how long.	Gasotransmitters and oxidative stress in the heart.	Nursing investigator award.
Coffee Break - Exhibition				Posters Session - Moderated Posters			
11:00 12:30	Valvular heart disease in heart failure.	Arrhythmias in heart failure - HF specialist meets the electrophysiologist. Cross talk.	Common challenges in CRT. HFA Focus. Case based interactive session.	Twenty-five years after CONSENSUS – What have we learnt about the RAAS in heart failure?	New hope for RNA-based therapies in heart failure.	Lethal myocardial reperfusion injury: beyond mitochondrial permeability transition.	Young investigator award for clinical research.
Satellite				Symposia			
14:15 15:45	ESC Guidelines on the diagnosis and treatment of heart failure.	Heart failure: causes not to miss. A joint session with Latin America.	Telemonitoring - Where are we now.	Savremena dijagnostika i praćenje bolesnika sa srčanom insuficijencijom.	How to approach, treat and manage pregnancy associated heart disease.	Novel aspects of Beta-Adrenergic signaling – Implications for heart failure treatment?	Young investigator award for basic science.
Coffee Break - Exhibition				Posters session - Moderated Posters			
16:30 18:00	Late breaking trials 1.	Acute heart failure Clinical management in 2012.	Imaging heart failure - What clinicians need to know.	Najvažnije poruke za lečenje srčane insuficijencije iz novih preporuka i konsenzus dokumenata Evropskog udruženja kardiologa.	Exercise training in heart failure: it's worth the effort!	Sarcomeric protein alterations leading to heart failure.	Judges choice: basic science.
Satellite				Symposia			
Monday 21 May 2012							
08:30 10:00	When drugs fail. Surgery option. A joint session with China.	The added value of biomarkers in heart failure.	Arrhythmias. HFA Focus. Case based interactive session.	Novine u lečenju srčane insuficijencije.	Integrative physiology and systems biology for clinicians.	Myocardial regeneration: what cell sources to use?	Judges choice: clinical treatment research.
Coffee Break - Exhibition				Posters Session - Moderated Posters			
11:00 12:30	Controversies in cardiac resynchronisation therapy.	Emerging drug therapies for acute heart failure.	When drugs fail. Using devices in heart failure. HFA Focus. A joint session with HFSA.	Debata – Kontroverze u srčanoj insuficijenciji.	Nuclear remodelling and Ca ²⁺ handling: key player in heart failure progression?	Inflammation and autoimmune reactions in heart failure: biomaker, bystander or mediator.	Judges choice: clinical research.
Satellite				Symposia			
14:15 15:45	Late breaking trials 2.	Highlight of tomorrow.	Lifestyle: frequently asked questions.	Složena klinička stanja u srčanoj insuficijenciji - prikazi bolesnika.	Calcium waves, leaks and dangerous currents.	Cancer and the heart.	ISHR abstract session.
Coffee Break - Exhibition				Posters Session - Moderated Posters			
16:30 18:00	Co-morbidities in heart failure: cardiorenal syndrome.	What heart failure specialist should know about CRT.	Acute heart failure. HFA Focus. Case based interactive session.	New devices for patient monitoring.	Understanding HFpEF: lots of news!	New ways in cardioprotective strategies: effects of co-morbidities and their medication.	Mitochondria in heart failure: an important target for therapy.
Tuesday 22 May 2012							
08:30 10:00	Idiopathic dilated cardiomyopathy - Diagnosis and treatment.	Optimal management of cardiogenic shock.		Listening and responding to our patients.	Novel mechanisms of cell death or survival in heart failure.	Highlights of the congress - Basic science.	
Coffee Break - Exhibition				Posters Session - Moderated Posters			
11:00 12:30	Highlights of the congress.	The real patient: heart failure in the elderly with co-morbidity.		Lokalna sesija - sve najvažnije na kongresu!	Why haven't we got any new therapy after 30 years of hypertrophy research?	Dysfunctional ion handling in heart failure – Bystander or therapeutic target?
