

ELSEVIER

Erratum

The European Society of Cardiology and the Publisher regret that the erratum as published in European Heart Journal (2003), 24, 485 was incorrect. The correct erratum is presented below.

Erratum to “Management of acute coronary syndromes in patients presenting *without* persistent ST-segment elevation” [Eur Heart J (2002) 23, 1809–1840]

Michel E. Bertrand*, Maarten L. Simoons, Keith A.A. Fox, Lars C. Wallentin, Christian W. Hamm, Eugene McFadden, Pim J. De Feyter, Giuseppe Specchia, Witold Ruzyllo

The European Society of Cardiology and the Publisher regret that in the task force report, two incorrect figures have been published. Fig. 2 (page 1816) should be replaced by the figure below.

* Corresponding author: Dr M. E. Bertrand, Hopital Cardiologique, Department of Cardiology, Boulevard du Pr leclercq, 59037 Lille, France

Fig. 3 (page 1817) needs to be replaced by the figure on the next page.

Furthermore, on page 1810, in the second column, line 25 should read ‘In these guidelines, the level of evidence and the strength of recommendation are summarized in table 5’.

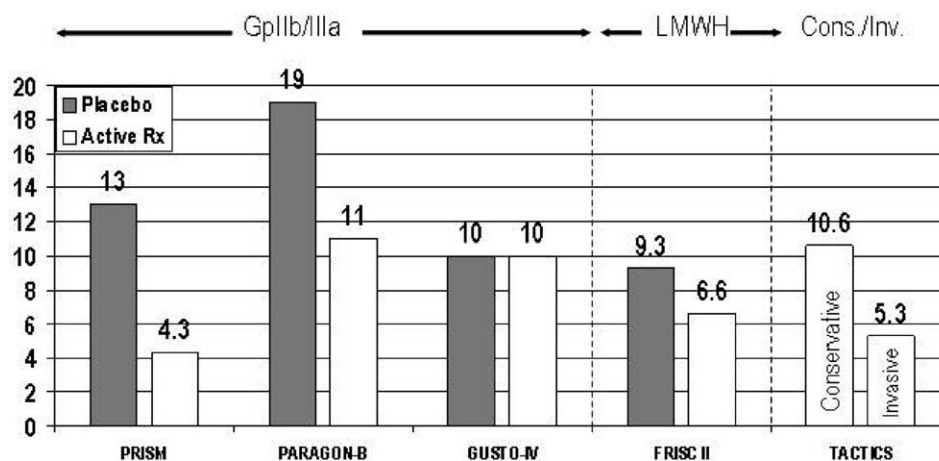

Fig. 2 Death or MI in patients with elevated troponins in contemporary trials. ■ Placebo; □ Active treatment.

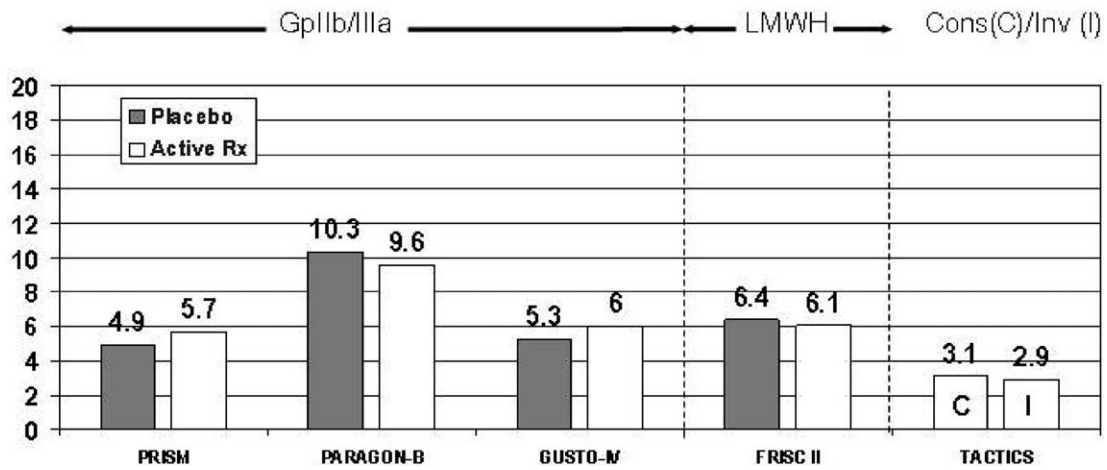

Fig. 3 Death or MI in patients with negative troponins in contemporary trials. Symbols as for Fig. 2.
