

The following table represents the relationships of committee members with industry that were reported in writing prior to the initial writing committee meeting and updated in conjunction with all meetings and conference calls of the writing committee during the document development process. It does not necessarily reflect relationships with industry at the time of publication.

Name	Research contracts (such as grants, etc.)	Consulting/advising	Employment in industry	Stockholder of a healthcare company	Owner of a healthcare company (or partnership)	Others
Writers

Indicates Modest Level Relationship (\$10,000 or less)

† Indicated Significant Level Relationship (More than \$10,000)

‡ Indicates Spousal Relationship

* As Director of the Duke Clinical Research Institute, I benefit indirectly from DCRI's institutional grants and contracts. A check in this column denotes that a grant or contract was executed with this entity in the past 3 years. Projects conducted with this entity are either current or completed within that 3 year time frame.

** In addition to oversight role as DCRI Director, funding is provided for my effort in research grants or contracts for multi-center projects in which I serve as either the Chairman, Co-Chairman, Executive or Steering Committee member. A check in this column denotes that I am involved in such a research contract. Payments for the work performed for these contracts are made to the University. A portion of my salary as a faculty member, representative of % effort on the project, has been supported by these funds in the past year.
