

## **Elections to EACVI Board and Sections 2016-2018**

**Application for the  
position: Councilor**

### **1. Your Identity**

**Title: Dr.**

**Family Name(s): Delgado**

**First Name(s): Victoria**

**Birth Date: 8th december 1975**

**Type of address: Business**

**Institute/Organisation: Leiden University Medical Center**

**Department: Cardiology**

**Address: Albinusdreef 2**

**Post Code/Zip: 2300 RC**

**City: Leiden**

**Country: The Netherlands**

## **Elections to EACVI Board and Sections 2016-2018**

### **2. General Curriculum Vitae (300 words max)**

#### **Place and Date of Birth**

Barcelona, Spain, 8 December 1975

#### **Present Position and Address**

Cardiologist senior specialist at the department of Cardiology of the Leiden University Medical Center, Leiden, The Netherlands  
Albinusdreef 2 2300 RC Leiden, The Netherlands

#### **Training and Education**

- Medical School, University of Barcelona, 1999
- Training in Cardiology, Hospital Clinic, University of Barcelona, 2005
- Fellowship in Cardiovascular Imaging at Hospital Clinic, University of Barcelona, 2006
- Fellowship in Cardiovascular Imaging at the Department of Cardiology, Leiden University Medical Center, 2007-2009

#### **Post Graduate Degrees**

- PhD, Leiden University Medical Center, 2007-2010 – thesis: Novel cardiac imaging technologies: implications in clinical decision making, ISBN:978-90-9025738-9

#### **European Society of Cardiology Activities**

- Task Force member of 2013 ESC Guidelines on cardiac pacing and cardiac resynchronization therapy.
- EORP Oversight Committee member since 2016
- Member of the Committee of Practice Guidelines since 2016

#### **Other International Scientific Committee Participation**

- Member of the Spanish Society of Cardiology, 2005-current
- Member of the Dutch Society of Cardiology, 2010-current
- EACVI Board member 2014-current

#### **Editorial Boards**

- Associate Editor of Circulation
- Member Editorial Board Eur Heart J Cardiovasc Imaging, 2012-current
- Member Editorial Board J Am Soc Echocardiogr, 2011-current
- Member Editorial Board JACC Cardiovasc Imaging, 2015-current
- Member Editorial Board Circ Cardiovascu Imag, 2013-current
- Member Editorial Board Heart, 2013-current
- Member Editorial Board Can J Cardiol, 2013-current

#### **Fellowships / Honors**

- Simon Dack Award, American College Cardiology, 2014

#### **Major Research Interest**

- Study of cardiac mechanics with novel echocardiographic techniques in cardiovascular diseases, including ischemic and valvular heart disease. Application of non-invasive imaging techniques to select patients for and guide transcatheter cardiovascular interventions for structural heart disease.

## **Elections to EACVI Board and Sections 2016-2018**

### **3. Previous experience(s) in the EACVI or ESC or your National Bodies?**

- Task Force member of 2013 ESC Guidelines on cardiac pacing and cardiac resynchronization therapy.
- EORP Oversight Committee member since 2016
- Member of the Committee of Practice Guidelines since 2016

### **4. Are you a Board or Nucleus Member of another scientific organisation? If Yes, please specify**

- No

## Elections to EACVI Board and Sections 2016-2018

### 5. Publications (please list 10 max)

- Transcatheter aortic valve implantation: Role of multi-detector row computed tomography to evaluate prosthesis positioning and deployment in relation to valve function. Delgado, V., et al. *Eur Heart J*.2010;31:1114-1123
- Relative merits of left ventricular dyssynchrony, left ventricular lead position, and myocardial scar to predict long-term survival of ischemic heart failure patients undergoing cardiac resynchronization therapy. Delgado, V., et al. *Circulation*.2011;123:70-78
- 213 ESC Guidelines on cardiac pacing and cardiac resynchronization therapy. *Eur Heart J* 2013;34:2281-2329
- SCCT expert consensus document on computed tomography imaging before transcatheter aortic valve implantation (TAVI)/transcatheter aortic valve replacement (TAVR). *Journal of Cardiovascular Computed Tomography* 2012;6:366-380
- Recommendations for the imaging assessment of prosthetic heart valves: a report from the European Association of Cardiovascular Imaging endorsed by the Chinese Society of Echocardiography, the Inter-American Society of Echocardiography, and the Brazilian Department of Cardiovascular Imaging. *Eur Heart J Cardiovasc Imaging*. 2016 Jun;17(6):589-90.
- Does computed tomography detect bioprosthetic aortic valve thrombosis? New findings, new questions? *Eur Heart J*. 2016 Jul 21;37(28):2272-5
- Diagnosis and management of aortic valve stenosis in patients with heart failure. *Eur J Heart Fail*. 2016 May;18(5):469-81.
- Left ventricular systolic function assessment in secondary mitral regurgitation: left ventricular ejection fraction vs. speckle tracking global longitudinal strain. *Eur Heart J*. 2016 Mar 7;37(10):811-6
- Tricuspid valve remodelling in functional tricuspid regurgitation: multidetector row computed tomography insights. *Eur Heart J Cardiovasc Imaging*. 2016 Jan;17(1):96-105.
- Low gradient severe aortic stenosis with preserved ejection fraction: reclassification of severity by fusion of Doppler and computed tomographic data. *Eur Heart J*. 2015 Aug 14;36(31):2087-2096

## **6. Received Hirsch Index : Year / Index**

2007-current: 50

## **7. Received Impact Factor(s) : Year / IF**

i10-index: 180

## **Elections to EACVI Board and Sections 2016-2018**

### **8. Why are you interested in joining the EACVI Board (150 words max)?**

My experience at the EACVI board these two years has been very positive, very enriching and it has given me the opportunity to meet many international colleagues and collaborate with other institutions. I would like to humbly apply again as a candidate to the Board for the European Association of Cardiovascular Imaging during the period 2016-2018 to further contribute to its development, to its respected reputation as a professional organization and to further improve the management of cardiovascular patients with the help of new developments in non-invasive imaging techniques.

My interest has always been in non-invasive cardiovascular imaging and how to apply current techniques to improve the diagnosis and management of patients. Education and science have been also a central core of my interest. I would be honoured to contribute further to these different areas within EACVI and it would be my privilege to serve EACVI in the future from the EACVI board.
