Faculty

More than 10 European eminent experts together with distinguished local faculty from the various Middle East countries will present the most recent, cutting edge information on different topics regarding acute cardiovascular care. The focus will be on the practical clinical pearls needed for the proper management of acute cardiac conditions.

Who Should Attend?

The audience will include emergency physicians, cardiologists, intensivists, internists, primary care practitioners, CCU and critical care nurses, emergency medical providers, cardiac technicians and other medical professionals who care for cardiac patients.

Educational Objectives

At the conclusion of this activity, it is expected that the participants will be able to initiate safe and effective management of a wide variety of patients with cardiovascular emergencies including:

- ♥ Identify optimum treatment strategies and antithrombotic therapies for patients with acute coronary syndromes.
- ♥ Determine the indications and application of different management modalities in acute heart failure and cardiogenic shock.
- ♥ Understand and apply optimal management strategies for the treatment of acute pulmonary embolism.
- ♥ How to manage cardiovascular emergencies in pregnancy.
- ♥ Prompt recognition and treatment of potentially life-threatening arrhythmias.
- ♥ Understand emerging strategies for improving outcomes after in-hospital cardiac arrest.

Program Timings

Friday, 15 January, 2016

Registration:	09:00 hours
Meeting commences:	16:30 hours
Meeting closes:	21:50 hours
Dinner:	22:00 hours

Saturday, 16 January, 2016

Registration:	07:30 hours
Meeting commences:	08:30 hours
Meeting closes:	18:05 hours

Sunday, 17 January, 2016

Meeting commences:	08:30 hours
Meeting closes:	17:45 hours

Official Language

The official language of the conference is English.
