Name and definition

*Nurses and Allied Professions in the field of
interventional cardiology*

Committee

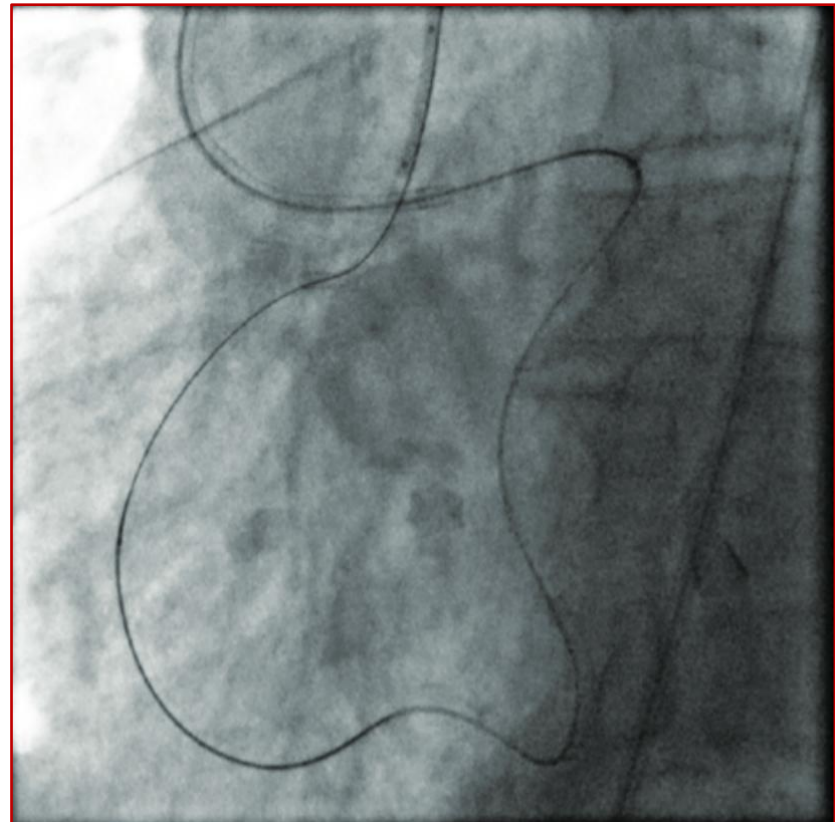

| Title | Name | Country |
|----------|-------------------------------------|----------------|
| Chair | Lene Kløvggaard * | Denmark |
| Co-Chair | David Zughaft * | Sweden |
| Co-Chair | Sandra Griggio * | Italy |
| Member | Sarah Carson * | United Kingdom |
| Member | Siro Buendia | Spain |
| Member | Johannes Laub * | Germany |
| Member | Agnes Lugtigheid | Netherlands |
| Member | Marjo de Ronde * | Netherlands |
| Member | Pia Lüttge Thomassen * | Denmark |
| Member | Ricardo Esteves * | Portugal |
| Member | Hervé Faltot * | France |
| Member | Beatrice Magro | Italy |
| Member | Lynne Hinterbuchner | Austria |
| Member | Vera Rodríguez García-Abad * | Spain |
| Member | Tonny Van Hecke * | Belgium |
| Member | Laure Morsini | France |

* = PCM

Different professions working towards the same goal

- RN
- LPN
- Technicians
- Study Coordinators
- Nursing practitioners
- Biomedical Scientist

→ ***Allied Professions***

Aims

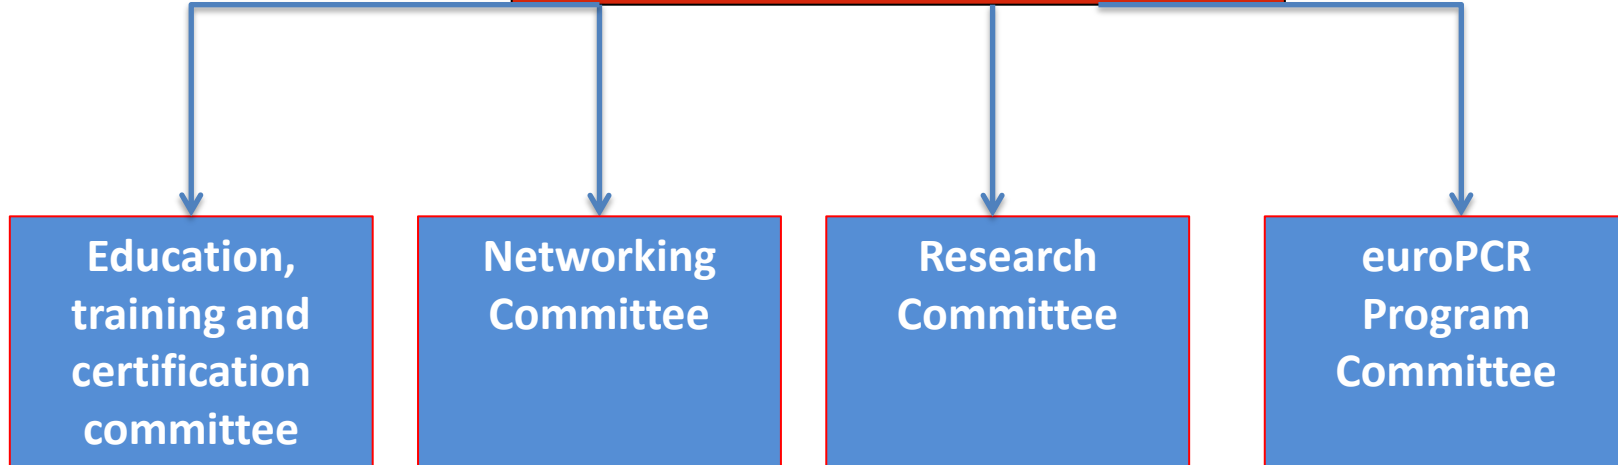

- Build a network for Nurses and Allied Professions working in the the field of interventional cardiology in Europe
- Support the development of training and education program for Nurses and Allied Professions working in the the field of interventional cardiology in Europe (ESCel)
- Construct a foundation for sharing of knowledge and development of translational research among Nurses and Allied Professions throughout Europe

Strategic goals 2014 - 2016

- Extend number of members – Target= 300
- Active homepage and LinkedIn group 2014
- Appoint task forces in the Nurses and Allied Professions committee responsible for networking, education and certification development and research
- Start development of educational web-based platform within the EAPCI community (ESCel)
- Start process of Nurses and Allied Professions certification in the meaning of training standard

Organisation and structure

EAPCI N&A Board
Chairman: Lene Klovgaard, Denmark
Co-Chair: David Zughaft, Sweden
Co-Chair: Sandra Griggio, Italy

Action plan: Education and training

Objective: Start and develop a framework of guidelines for education and training

- Proposal to provide courses / basic practical training and “How to sessions” or “Hands-On workshops” at euroPCR
 - Target : 1 course to be implemented at euroPCR 2015
- Performing a survey to map out education level, experience and needs to be met primarily by Nurses and Allied professions sessions during euroPCR.

Action plan: Network

Objective: Create the network and disseminate information

- Committee members representatives from all over Europe
- A permanent column for the committee in EuroIntervention
- A homepage and a LinkedIn group, restricted to EAPCI members
- Presentation euroPCR 2015: How to use social media in knowledge sharing (LinkedIn, Escel, websites, internet)
- Increase EAPCI membership among Nurses and Technicians by having a computer in the N/T corner at euroPCR 2015 for registration and guidance in 'how to'

Action plan: Research and Development

Objective: Start and develop a foundation of translational and multidisciplinary research

- Identify stakeholders in key centers across Europe and start networking
- Identify a potential novel study proposal
- Perform a multicenter trial and publish
- Annual science sessions at euroPCR with updates and late breaking trials.

Action plan: euroPCR 2015

Objective: Creating a program by clinicians – for clinicians

- Constitute a euroPCR program committee chairperson with responsibility to coordinate the work of the program committee (Lene Klovgaard)
- Develop a matrix for abstract review
- Develop a program with diversity and a mixture between interactive sessions (Learning, Live-in-a-box) and lectures
- Annual evaluation of last year program

euroPCR 2014 evaluation

How can we contribute to even better Nurses and Technicians sessions during euroPCR 2015?

Evaluation Key Notes

- Several 'full house' sessions
- Good atmosphere
- Interesting topics
- Lots of positive feedback from the participants
- Too condensed program with two full days
- N/T corner better this year (but not optimal)

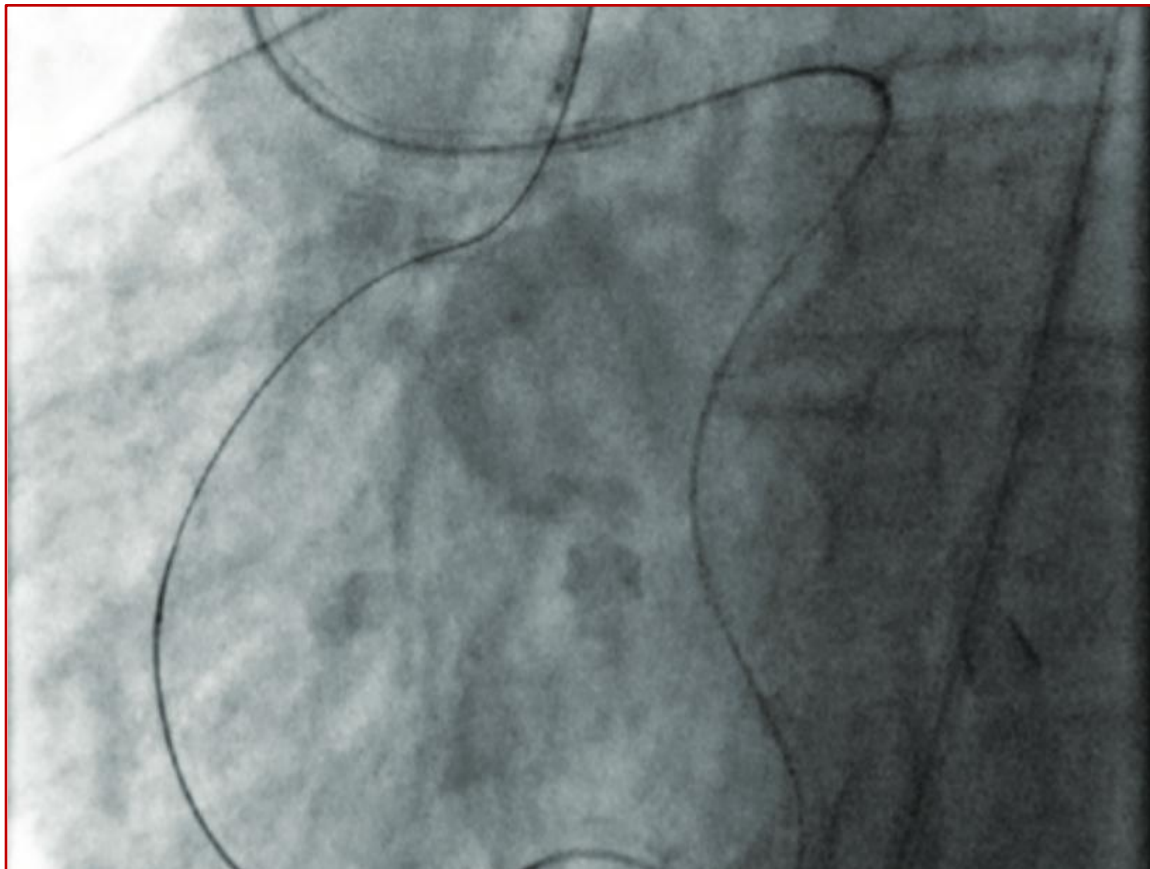

euroPCR 2015 Suggestions

- Head Coordinator from the N/T-PCM group, to help coordinating the N&T programme together with the euroPCR organisation committee
- 2.5 days program
- Hands-on workshops during breaks
- Cooperation with exhibitors
- Maintain the posters opportunities

Multidisciplinary approach - Future perspective

- Joint venture at euroPCR 2015 (LTT, workshop etc)
- Nurse and technicians perspective during selected sessions in the main program
