ESC Membership Committee 2018-2020
Official ESC spokesperson for ESC Congress and ongoing press activities
Fellow of the ESC 2018-2020
Member: EAPCI, EACVI and HF Association

Added value that I will bring to the ESC with my election

During the past 10 years I have served in multiple positions within the ESC including the ESC Board and also within the Board of the Austrian Society of Cardiology. I have always considered the work of the ESC to be particularly important, as the ESC can frame uniform treatment of patients, training and education of cardiologists, and much more across all Europe. Based on my professional career and clinical position, I am aware of the needs of clinical cardiologists as well as scientists, and I have the experience and insight to understand and represent the professional community. In addition, as one of the few female interventional cardiologists in my country, I am particularly aware of the obstacles faced by women in cardiology and science.

For all these reasons, it would be a great pleasure for me to serve on the ESC Nominating Committee from 2022 to 24.
