

Our collective advocacy in action

The path to national cardiovascular health plans

Przemyslaw Mitkowski

March 8th, 2024

National Program for Cardiovascular Diseases

- **Established in December 27th 2022**
 - 270 M PLN/year 2023-2032 (Euro 64,3 M)
 - Areas of investments:
 - **Human resources** (education of students and post-graduates)
 - **Education, prevention and lifestyle** (physical activity, smoking, obesity, ...)
 - **Patient** (screening: early diagnosis of risk factors – primary/secondary prophylaxis)
 - **Science and innovation** (innovative diagnostics and treatments, registries – medical data, tele-care, Medical Trial's Agency)
 - **Cardiac care system** (holistic manager care)

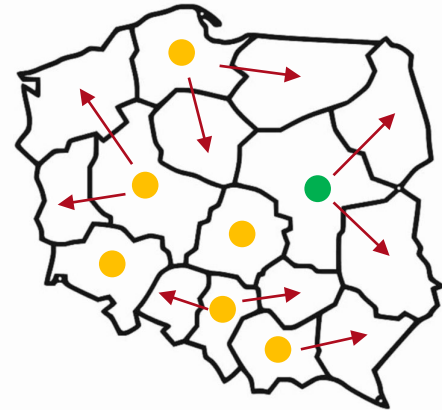

National Program for Cardiovascular Diseases

- **Established in December 27th 2022**
 - 270 M PLN/year 2023-2032 (Euro 64,3 M)
 - Plans for 2024:
 - Investments in equipment for non-invasive and invasive diagnostic
 - New program for post-graduate cardiology fellowship (specialization)
 - System of new screening programs
 - Standards of care (tele-care, hypelipidemia heart failure, hypertension)
 - Establishing of a uniform system for collecting data in medical registries
 - Multicenter trials on epidemiology of CVDs

National Program for Cardiovascular Diseases

- **Established in December 27th 2022**
 - Cardiovascular network as a part NPCVD
 - Aim – target diagnosis within 30 days from suspicion of CVD problem
 - Unlimited access to diagnostic and therapeutic procedures in the field of:
 - Hypertension secondary or resistant
 - Heart failure
 - Arrhythmia
 - Valvular heart defect
 - Centers of cardiac excellence

National Program for Cardiovascular Diseases

- **Established in December 27th 2022**
 - Reimbursement (2023 – January 1st, 2024)
 - LLPM
 - ILR
 - Tricuspid valve repair (Edge-to-Edge)
 - LVAD – destination therapy
 - Managed care after MI
 - Flosins for LVEF \leq 50%
 - PCSK9i/inclisiran post MI – stepwise liberalization (??? since April 1th, 2024 LDL-C \geq 70 mg/dl (1,4 mmol/l))
 - Rare diseases (lomitapide, *tafamidis*, *mavacamten*)
 - *WCD*
