

Dr. Bettina KRAUS, Boehringer-Ingelheim

Bettina Kraus is a board-certified internist and cardiologist as well as qualified HF and hypertension specialist. She graduated from Charité, Berlin in 2004 and was trained in Internal Medicine and Cardiology at the University Hospital Homburg/Saar and University Hospital Würzburg, Germany.

She has more than 15 years of experience in clinical practice and a substantial background in basic and clinical science on cardio-renal-metabolic diseases. Following her MD thesis in endocrinology at the University of Frankfurt and a postdoc fellowship on obesity and metabolism with Barbara B. Kahn at Harvard University, Bettina led translational cardio-metabolic as well as cardio-renal research projects at the German Comprehensive Heart Failure Centre in Würzburg, Germany.

Bettina joined Boehringer Ingelheim in 2020 and is currently responsible for the medical team in HF, supporting cardiovascular strategy and pipeline projects. She is a member of the cardiovascular round table since 2021 and represents industry at the CRT nucleus.
