

Dr. Alphons VINCENT, Medtronic

Alphons Vincent, MD is currently Medical Director for the Cardiac Rhythm Management division of Medtronic in Western Europe. He is with Medtronic for 33 years and held several positions in marketing, business, clinicals, education and medical affairs.

His experience includes positions in Vitatron, a pacemaker company within the Medtronic corporation, Cardiac Surgery (heart valves), Subcutaneous Diagnostics and Monitoring (Reveal) and Cardiac Rhythm Management. He is a graduate (MD) of the Medical School at the University of Nijmegen (The Netherlands) and holds bachelor's degrees in management information systems and economics at the University of Tilburg (The Netherlands).

In his current role he is responsible for physician advisory boards, scientific and educational symposia, clinical evidence strategy, the Office of Medical Affairs and professional relations with the medical societies and associations. He plays a coordinating role in managing the relationships with key opinion leaders in Europe.
