PROGRAMME AT A GLANCE*

**This programme does not include Moderated ePoster sessions,
for the latest updates please check the event platform*

#EHRA2022

ESC
European Society
of Cardiology

SUNDAY, 3 APRIL

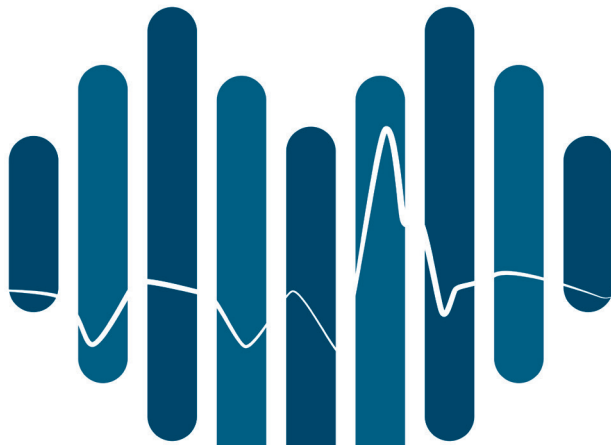

A welcome coffee will be served to all EHRA 2022 delegates from 07h45 in the venue on Sunday 3 April.

	CHANNEL 1*	CHANNEL 2*			
TIME (CEST)	LECTURE ROOM 1	LECTURE ROOM 2	LECTURE ROOM 3	LECTURE ROOM 4	LECTURE ROOM 5
08:20 - 09:20	EHRA scientific documents 2022	Meet the experts from the EHRA Practical Guide on Digital Devices	Young Investigator Award - Basic and Translational Science		Atrial fibrillation (AF) clinical cases with focus on rhythm control and anticoagulation
09:20 - 09:30	ONSITE = Break / ONLINE = Interlude				
09:30 - 10:50		Inaugural session and Honorary Lectures			
10:50 - 10:55	ONSITE = Break / ONLINE = Interlude				
10:55 - 11:40	Pacemaker therapy in 2022: from conduction system to leadless pacing <i>Sponsored by Medtronic</i>	What if? Protecting your patients with atrial fibrillation from stroke, no matter their journey <i>Sponsored by Bayer</i>	Live abstract session - New on atrial fibrillation	Live abstract session - News from ventricular ablation	Live abstract session - Sports and genetics in EP
11:40 - 11:50	ONSITE = Break / ONLINE = Interlude				
11:50 - 12:50	Ventricular tachycardia (VT) guidelines	Precision medicine approach to atrial fibrillation (AF)	Tips and tricks in syncope	Periprocedural management of catheter ablation of atrial fibrillation (AF)	EHRA Technology and Innovation
12:50 - 13:00	ONSITE = Break / ONLINE = Interlude				
13:00 - 13:45	Innovations in implantable cardioverter-defibrillator (ICD) therapy: the extracardiac ICD <i>Sponsored by Medtronic</i>	Device therapies for heart failure patient management - What you need to know. <i>Sponsored by Abbott (onsite only)</i>	Live abstract session - Atrial fibrillation and beyond	Live clinical case - Challenging clinical cases in electrophysiology Part I	Live abstract session - News on atrial ablation 1
13:45 - 13:55	ONSITE = Break / ONLINE = Interlude				
13:55 - 14:55	Late Breaking Clinical Trials I	Live case session I: ventricular tachycardia (VT) ablation	Two viewpoints on shared decision making in atrial fibrillation (AF) in practice	Speed up your digital clinic: practical advice on interpretation and management	How to manage postural orthostatic tachycardia syndrome
14:55 - 15:05	ONSITE = Break / ONLINE = Interlude				
15:05 - 15:35	How to reduce infections in implantable cardiac devices? <i>Sponsored by Medtronic</i>				Practical insights for periprocedural management of anticoagulation in elderly atrial fibrillation patients <i>Sponsored by Daiichi Sankyo Europe GmbH streamed on channel 2</i>
15:35 - 15:45	ONSITE = Break / ONLINE = Interlude				

*Only Channel 1 and 2 will be streamed live during the congress

SUNDAY, 3 APRIL (CONTINUED)

	CHANNEL 1*	CHANNEL 2*			
TIME (CEST)	LECTURE ROOM 1	LECTURE ROOM 2	LECTURE ROOM 3	LECTURE ROOM 4	LECTURE ROOM 5
15:45 - 16:45	Implementing trials in clinical practice	Role of atrial appendage closure in stroke prevention <i>Joint session with Heart Rhythm Society (HRS)</i>	How to manage cardiac resynchronisation therapy (CRT) challenges I	e-Cardiology awards session	The EHRA EU research projects
16:45 - 16:55	ONSITE = Break / ONLINE = Interlude				
16:55 - 17:40	Artificial intelligence and digital health for cardiac devices <i>Sponsored by Medtronic</i>	Radiofrequency (RF) energy and single shot device for pulmonary vein isolation (PVI): live case with HELIOSTAR™ balloon technology <i>Sponsored by Biosense (onsite only)</i>	Live abstract session - Atrial fibrillation and ablation	Live abstract session - News on ICDs	Live abstract session - News on atrial ablation 2
17:40 - 18:05	ONSITE = Break / ONLINE = Interlude				
18:05 - 19:05	Live case session: physiological pacing	To screen or not to screen for atrial fibrillation (AF)	Atrial fibrillation (AF) in HFrEF, HFmrEF and HFpEF: does it make any difference? <i>Joint session with Heart Rhythm Society (HRS)</i>	The role of imaging in ventricular tachycardia (VT) ablation	Your worst nightmares in the lab: what to do and what not to repeat? <i>Joint session with the Latin American Heart Rhythm Society (LAHRS)</i>
19:05 - 19:15	ONSITE = Break / ONLINE = Interlude				
19:15 - 20:00	Discover the essence of electrophysiology by treating non-sustained and complex arrhythmias with charge density mapping <i>Sponsored by Biotronik & Acutus Medical</i>				

TUTORIALS
Medtronic - Tutorials 1
Boston Scientific - Tutorials 2 & Tutorials 3

Biotronik - Tutorials 4
Abbott - Tutorials 5 & Tutorials 6
Biosense - Tutorials 7 & Tutorials 8

*Only Channel 1 and 2 will be streamed live during the congress

MONDAY, 4 APRIL

CHANNEL 1*		CHANNEL 2*			
TIME (CEST)	LECTURE ROOM 1	LECTURE ROOM 2	LECTURE ROOM 3	LECTURE ROOM 4	LECTURE ROOM 5
08:30 - 09:30	Hein Wellens Memorial ECG Session	Screening for atrial fibrillation - a pro/con debate	Atrial fibrillation (AF) guidelines into clinical practice	Clinical impact of a syncope <i>Joint session with the Japanese Heart Rhythm Society (JHRS)</i>	Difficult decisions in rhythm control of atrial fibrillation (AF)
09:30 - 09:40	ONSITE = Break / ONLINE = Interlude				
09:40 - 10:40	The future in syncope treatment	Controversies in ventricular tachycardia (VT) ablation	How to implant a pacemaker in 2022: tips and tricks from the experts	Prolonged rhythm monitoring is not enough for stroke prevention - the need for qualified judgement <i>Joint session with the ESC Council on Stroke</i>	The future of atrial fibrillation (AF) ablation around the world <i>Joint session with Asia Pacific Heart Rhythm Society (APHRS)</i>
10:40 - 11:05	ONSITE = Break / ONLINE = Interlude				
11:05 - 11:50	Hybrid ablation: a new standard of care in long standing persistent atrial fibrillation? <i>Organised by Radcliffe Medical Education. Supported by an unrestricted educational grant from AtriCure.</i>	Live abstract session - Atrial fibrillation: new insights	Live abstract session - The digital ECG world and beyond	Live clinical case - Challenging clinical cases in electrophysiology Part II	Atrial fibrillation (AF) management - how does novel technology help to address this comprehensive task? <i>Sponsored by Biotronik (onsite only)</i>
11:50 - 12:00	ONSITE = Break / ONLINE = Interlude				
12:00 - 13:00	Primary prophylactic implantable cardioverter-defibrillator (ICD) implantation in this era with new heart failure therapies	How to ablate persistent atrial fibrillation (AF) beyond pulmonary vein isolation (PVI)	Ventricular tachycardia (VT) ablation in advanced heart failure	Atrial myopathy in atrial fibrillation (AF) patients	Does imaging help to navigate the heart in real time?
13:00 - 13:10	ONSITE = Break / ONLINE = Interlude				
13:10 - 13:55	Atrial fibrillation ablation technologies: Your patient, your choice <i>Sponsored by Medtronic</i>	Live abstract session - What is new on stroke prevention	Live abstract session - More insights into different new pacing techniques	Live abstract session - Basics in arrhythmias 1	Optimising outcomes for atrial fibrillation patients undergoing cardiac interventions <i>Sponsored by BMS/Pfizer Alliance (streamed on channel 2)</i>
13:55 - 14:05	ONSITE = Break / ONLINE = Interlude				
14:05 - 15:05	Expert consensus statement on state of genetic testing for cardiac diseases	Live case session I: atrial fibrillation (AF): new mapping improvements and imaging	HFpEF and atrial fibrillation (AF): pathophysiologic insights and therapeutic option	Sudden death in children and the young	Remote monitoring of cardiac implantable electronic device (CIED) recipients: a front-runner in telemedicine that is still optional?
15:05 - 15:15	ONSITE = Break / ONLINE = Interlude				

*Only Channel 1 and 2 will be streamed live during the congress

MONDAY, 4 APRIL (CONTINUED)

CHANNEL 1*		CHANNEL 2*			
TIME (CEST)	LECTURE ROOM 1	LECTURE ROOM 2	LECTURE ROOM 3	LECTURE ROOM 4	LECTURE ROOM 5
15:15 - 15:45	A change in hearts and minds: what informs your device choice? <i>Sponsored by Boston Scientific (onsite only)</i>				Cardiovascular implantable electronic device (CIED) infection - What if...? Problem and solutions through the lens of the infection disease specialist and cardiologist. <i>Sponsored by Philips (streamed on channel 2)</i>
15:45 - 15:55	ONSITE = Break / ONLINE = Interlude				
15:55 - 16:55	Live case session II: atrial fibrillation (AF) ablation	Predicting sudden death with artificial intelligence (AI)/ machine-learning (ML)	Adjust to the new rhythm: the post-pandemic EHRA	How to perform challenging idiopathic ventricular tachycardia (VT)/premature ventricular contractions (PVC) ablation	Risk calculators in arrhythmias: are they useful?
16:55 - 17:05	ONSITE = Break / ONLINE = Interlude				
17:05 - 17:50	A climate change in the atrial fibrillation world: Lightning Electroporation or Freezing Cryo Phenomena <i>Sponsored by Boston Scientific (onsite only)</i>	Heart health: the evolution of dielectric imaging and next generation ECG monitoring <i>Sponsored by Philips</i>	Live abstract session - Device and lead related complications	Live abstract session - A variety of new on electrophysiology	Live abstract session - Genetics and basics in AF and other arrhythmias: is there news?
17:50 - 17:55	ONSITE = Break / ONLINE = Interlude				
17:55 - 18:15		General Assembly	ONSITE = Break / ONLINE = Interlude		
18:15 - 19:15	Late Breaking Clinical Trials II	ECG competition	Cardiac pathology and arrhythmogenicity: how can imaging help us?	Atrial fibrillation (AF) ablation and dementia	New insights into risk of sudden death during sport
19:15 - 19:25	ONSITE = Break / ONLINE = Interlude				
19:25 - 20:10	Cardiac contractility modulation (CCM) - Device-based interventional heart failure therapy <i>Sponsored by Impulse Dynamics</i>				

TUTORIALS
Medtronic - Tutorials 1
Boston Scientific - Tutorials 2 & Tutorials 3

Biotronik - Tutorials 4
Abbott - Tutorials 5 & Tutorials 6
Biosense - Tutorials 7 & Tutorials 8

*Only Channel 1 and 2 will be streamed live during the congress

TUESDAY, 5 APRIL

CHANNEL 1*

CHANNEL 2*

TIME (CEST)	LECTURE ROOM 1	LECTURE ROOM 2	LECTURE ROOM 3	LECTURE ROOM 4	LECTURE ROOM 5
08:30 - 09:30	Live case session II: ventricular tachycardia (VT) ablation	Is there still room for drugs to control atrioventricular nodal conduction in atrial fibrillation (AF)?	Bootcamp on primary arrhythmia	Daily discussions in cardiac resynchronisation therapy (CRT)	Obesity, diet, and cardiac arrhythmias: mechanisms and clinical implications
09:30 - 09:40	ONSITE = Break / ONLINE = Interlude				
09:40 - 10:40	Young Investigator Award - Clinical	How to diagnose and treat ventricular tachycardias (VTs) in specific conditions	What is the best measure of outcomes for catheter ablation of atrial fibrillation (AF)?	News on supraventricular tachycardia <i>Joint session with the Chinese Society EP (CSPE)</i>	What is in the pipeline for us: new innovations
10:40 - 11:05	ONSITE = Break / ONLINE = Interlude				
11:05 - 11:50	Current challenges in Transvenous Lead Extraction and how to overcome them successfully <i>Sponsored by Cook Medical (onsite only)</i>	Vessel closure devices as key element to optimize patients' pathway and hospital efficiency through the EP department <i>Sponsored by Abbott (onsite only)</i>	Live abstract session - Sudden death and beyond	Live abstract session - Diagnostics in arrhythmias	Live abstract session - CRT news
11:50 - 12:00	ONSITE = Break / ONLINE = Interlude				
12:00 - 13:00	Conduction system pacing: ready for prime time?	Live case session III: atrial fibrillation (AF) ablation	Ablation and device therapy in patients with congenital heart disease	Latest science update	Lead extraction
13:00 - 13:10	ONSITE = Break / ONLINE = Interlude				
13:10 - 13:55			Live abstract session - Basics in arrhythmias 2	Live abstract session - Electrophysiology with news on various topics	Live abstract session - New techniques for pacing and beyond
13:55 - 14:05	ONSITE = Break / ONLINE = Interlude				
14:05 - 14:45	Atrial fibrillation (AF) and heart failure (HF) in the digital era	What the experts do when the first ventricular tachycardia (VT) ablation fails	How to manage cardiac resynchronisation therapy (CRT) challenges II	Ablation and device therapy in the pediatric population	Modern approaches to the management of supraventricular tachycardias <i>Joint session with the CHRS (Canadian Heart Rhythm Society)</i>
15:05 - 15:15	ONSITE = Break / ONLINE = Interlude				
15:15 - 15:30	EHRA 2022 Closing session				

TUTORIALS

Medtronic - Tutorials 1
Boston Scientific - Tutorials 2 & Tutorials 3

Biotronik - Tutorials 4
Abbott - Tutorials 5 & Tutorials 6
Biosense - Tutorials 7 & Tutorials 8

*Only Channel 1 and 2 will be streamed live during the congress

All presentations will be available on demand until **3 May 2022** on the congress platform. Thereafter, access them on ESC 365, all year long, by becoming an EHRA Member.
