

ESC Clinical Practice Guidelines

**GUIDELINES LIST FOR CLINICAL
CASE SUBMISSION**

2022

- Cardio-oncology
- Non-Cardiac Surgery: Cardiovascular Assessment and Management
- Ventricular Arrhythmias and the Prevention of Sudden Cardiac Death
- Pulmonary Hypertension

2021

- CVD Prevention in Clinical Practice
- Valvular Heart Disease
- Cardiac Pacing and Cardiac Resynchronization Therapy
- Diagnosis and Treatment of Acute and Chronic Heart Failure

2020

- Acute Coronary Syndromes (ACS) in Patients Presenting without Persistent ST-Segment Elevation
- Atrial Fibrillation
- Adult Congenital Heart Disease
- Sports Cardiology and Exercise in Patients with Cardiovascular Disease

2019

- Acute Pulmonary Embolism
- Chronic Coronary Syndromes
- Diabetes, pre-Diabetes and Cardiovascular Disease
- Dyslipidaemias
- Supraventricular Tachycardia

2018

- Cardiovascular Diseases during Pregnancy
- ESC/EACTS Myocardial Revascularization
- ESC/ESH Arterial Hypertension
- Fourth Universal Definition of Myocardial Infarction
- Syncope

2017

- Acute Myocardial Infarction in Patients Presenting with ST-Segment Elevation
- Focused Update on Dual Antiplatelet Therapy (DAPT)
- Peripheral Arterial Disease

2015

- Infective Endocarditis
- Pericardial Disease

2014

- Aortic Disease
- Hypertrophic Cardiomyopathy

2010

- Device Therapy in Heart Failure (Focused Update)
