

ESC Clinical Practice Guidelines

**GUIDELINES LIST FOR CLINICAL
CASE SUBMISSION**

2020

- Acute Coronary Syndromes (ACS) in Patients Presenting without Persistent ST-Segment Elevation
 - Atrial Fibrillation
 - Adult Congenital Heart Disease
 - Sports Cardiology and Exercise in Patients with Cardiovascular Disease
-

2019

- Acute Pulmonary Embolism
 - Chronic Coronary Syndromes
 - Diabetes, pre-Diabetes and Cardiovascular Disease
 - Dyslipidaemias
 - Supraventricular Tachycardia
-

2018

- Cardiovascular Diseases during Pregnancy
 - ESC/EACTS Myocardial Revascularization
 - ESC/ESH Arterial Hypertension
 - Fourth Universal Definition of Myocardial Infarction
 - Syncope
-

2017

- Acute Myocardial Infarction in Patients Presenting with ST-Segment Elevation
 - Focused Update on Dual Antiplatelet Therapy (DAPT)
 - Peripheral Arterial Disease
 - Valvular Heart Disease
-

2016

- Acute and Chronic Heart Failure
 - Cancer Treatments and Cardiovascular Toxicity (Position Paper)
 - CVD Prevention in Clinical Practice
-

2015

- Infective Endocarditis
 - Pericardial Disease
 - Pulmonary Hypertension
 - Ventricular Arrhythmias and the Prevention of Sudden Cardiac Death
-

2014

- Aortic Disease
 - ESC/ESA non-Cardiac Surgery: Cardiovascular Assessment and Management
 - Hypertrophic Cardiomyopathy
-

2013

- Cardiac Pacing and Cardiac Resynchronization Therapy
-

2010

- Device Therapy in Heart Failure (Focused Update)
-
