

## **European Association of Cardiovascular Imaging Certification in Cardiac Computed Tomography**

### **Grandparenting scheme Certification in Level 3**

I  
hereby confirm that

I have clinical experience: 5 years or more practice of CCT. Including the performance of greater than 1,000 cases in this area.

I have a Continual Medical Education: 15h/year average CME over the period of practice\*.

I can provide proof of\*:

either

Education: Presentation of 3 or more invited talks at CME-accredited international conferences;

Or EACVI/SCCT or national society endorsed courses in the field of CCT

or

Research: Publication of 5 or more (first or last author) original research articles in peer-reviewed journals in the field of CCT.

or

A combination of 5 presentations and publications total that satisfy the criteria outlined in Education or Research

I will provide 2 MCQs for each topic of CT syllabus. So a total of 28 questions that will be reviewed and edited/approved by the coordinator of each topic. Access to the questions submission platform will be granted to the candidates.

(The list of topics : Principles of computed tomography, Cardiac CT examinations, Quality & safety, Interpretation of CT images, Cardiac anatomy on CT, Coronary CT angiography (CTA), Coronary calcium imaging, Atherosclerotic plaque imaging, Congenital structural heart disease (in adult patients), Myocardial imaging, Valvular heart disease, Miscellaneous acquired structural heart disease, Great vessels, Cardiac CT in perspective)

*\*The board reserves the right to request all documentations proving what has been stated above (proof of CME, certificate of medical degree, certificate of specialization, presentation, publications and so on)*
