

European Heart Rhythm Association

Certification in Invasive Cardiac Electrophysiology (EP)

Topics distribution

Topic	Proportion in the examination
Basic electrophysiology (genetics, channels, drugs)	5-10%
General concepts	5-10%
Supraventricular tachycardias <ul style="list-style-type: none">– ST Accessory Pathways– ST AVNRT– ST Atrial Tachycardia– ST Maneuvers	15-20%
Ventricular tachycardias <ul style="list-style-type: none">– Idiopathic– Structural– Bundle Branch Reentry	15-20%
Specific ablation aspects	10-15%
Atrial flutter and Atrial Fibrillation <ul style="list-style-type: none">– AFib– CTI Flutter– Atypical flutter	15-20%
Clinical rhythmology (ECGs, imaging, clinical syndroms and related technics) <ul style="list-style-type: none">– Guidelines and clinical studies	10-15%
Devices	10%

The above list reflects topics and proportion of questions for each topic candidates will encounter during the examination. The information given can be subject to change.

Candidates should be familiar with the most recent guidelines relevant to the topics listed that are issued or endorsed by the ESC or EHRA. These are listed in the suggested reading list.
