What would you like to achieve if you were elected?

To give to EAPCI the logistical/financial means to improve its visibility inside and outside the community and to develop present and future initiatives in the field of cardiovascular interventions

If you were elected, how do you envisage to organize yourself to accommodate this very demanding additional commitment?

My healthcare activity is only dedicated to interventional cardiology and occupies three days and half of my time per week

Recommendation letter(s)

A recommendation letter from the Interventional Working Group or National Society is mandatory for all positions

Cher Président, cher Jean

Le Dr Bernard Chevalier souhaite se porter candidat aux prochaines élections du Board EAPCI.

Je soutiens fortement cette candidature et lui souhaite d'être élu.
En effet, Bernard a été, comme tu le sais, fortement impliqué dans le GACI : tout d'abord comme membre du bureau puis comme Président élu pendant 2 ans. Il est reconnu dans la recherche médicale et dans l'évaluation des innovations technologiques comme le témoigne sa liste de titres et travaux.

Tout cela en fait un des leaders incontestés de la cardiologie interventionnelle française et ce serait une chance pour notre communauté qu'il puisse nous représenter au sein du Board EAPCI.

Amitiés.

René Koning
