APPLICATION FOR THE EAPCI EDUCATION AND TRAINING GRANT PROGRAMME

Thanks to financial support from industry sponsors, the European Association of Percutaneous Cardiovascular Interventions (EAPCI), a branch of the European Society of Cardiology (ESC), is offering an Education and Training Grant Programme available to qualified Medical Doctors and Cardiologists working in the field of Interventional Cardiology. We invite separate applications from both individuals and centres to be matched exclusively by the EAPCI Fellowships Committee (after discussion between the candidate, the hosting training centre and the EAPCI Fellowship Grants Committee). Candidates are also offered the opportunity to proactively approach centres of their choice to request their likeliness to host them.

Prior to completing this form, please carefully read **the Rules and Regulations** for the EAPCI Education and Training Grant Programme for interventional cardiology.
