Who we are

The world's leading network of cardiovascular imaging professionals

The EACVI is a not-for-profit organisation. Everything we do is to support our 14,000 members and all healthcare professionals from cardiovascular imaging worldwide so they can deliver the best possible evidence-based care to patients.

Our activities are driven by volunteers who are renowned experts from across all imaging techniques: echocardiography, cardiovascular magnetic resonance, nuclear cardiology and cardiac computed tomography.

**Our mission:** to promote excellence in clinical diagnosis, research, technical development, and education in cardiovascular imaging.

**EACVI is a branch of the European Society of Cardiology**
A few words from our President

Dear members, dear friends,

"If you dream alone, your dream will remain a dream. If you dream with other people, your dream will become reality". Yoko Ono.

Last year ended with the challenging but successful Euroecho 2021, a finally virtual Congress, which reached more than 2945 attendees from all over the world. In the first half of 2021, the online versions of ICNC-CT and EuroCMR were also held with great success with more than 1750 cumulated attendees. The reality of the pandemic continues to influence the work of the EACVI and the ESC, sometimes forcing us to change our plans at the last moment. Nevertheless, both the EACVI and the CVI communities continue to support, with enthusiasm, all our activities.

We continued to dream of the in-person congresses, live courses and face-to-face meetings, in a normal and safe world again. And this dream is becoming reality. The recent live course on CCT at the heart house, the AI-CMR meeting in London and finally the EchoNice cursus attended by more than 300 delegates in total during the first semester of 2022 are encouraging. For safety reasons, the meeting in December will be purely online in order to avoid a last moment digital flip, as last year, generating a lot of unnecessary stress and frustration for both the organizers and the attendees.

The project of a big EACVI meeting, initially scheduled in 2020, has been reactivated and is planned onsite in Barcelona, Spain, from 12-14 May 2023.

In 2021, we have been doing our best to keep providing excellent science and education, and we will do it again in the year to come, expanding the online offer.

I would like to thank you all for contributing to our association and ensuring that 2021 was successful for the EACVI. The support of the industry during this difficult period was also crucial. Despite the absence of an onsite congress in 2021, the number of EACVI Members remained constant. Your fidelity, your trust - we will continue to work to deserve them. The EACVI is more dynamic than ever; many new activities have been and will be launched.

The certification exams are now fully available online and EACVI is paving the way for the broader educational offer within the ESC ever. The young community remains extremely dedicated and enthusiastic and is preparing for the future of the EACVI with great professionalism.

Cardiac imaging is pivotal to almost every case in daily clinical cardiology practice. It is one of the most transversal specialities in cardiology and it covers almost all other subspecialities. Therefore, it was normal that the new ESC guidelines on Cardio-oncology that will be presented in 2022 will also be co-published in the EHJ-CVI (with a present IF of 6.875). A new open access journal will be launched in 2023.

We are working to improve patient awareness regarding CV imaging and developing online education modules for non-cardiologists (launch September 2022). We organised mini-symposia dedicated to specific diseases and cutting-edge aspects of CV imaging modalities and the program will continue this year to come. They are now available in VOD.

And let’s not forget the EACVI Fellowship (FEACVI) programme launched in 2019, which has been a great success. Join us!

Thanks again for your unwavering commitment and involvement in our projects. We rely on you.

Prof. Bernard Cosyns
EACVI President 2020-2022
Activity Snapshot 2021

- EuroCMR 2021 (1,244 delegates)
- ICNC-CT 2021 (516 delegates)
- 5 books
- 3 surveys conducted
- 13 papers published
- 81 didactic tutorials
- 9 certification exams on 7 topics

Education Committee
Interactive online modules, postgraduate certification, grants and courses: the EACVI has an educational programme to suit all healthcare professionals. Discover here.

Teaching Courses
The EACVI aims to share cardiovascular imaging education worldwide by organising joint teaching courses with National Working Groups on all multimodality imaging techniques. The association also offers tailored workshops for the young community and preparatory courses for certification.

All in-person courses had to be cancelled in FY20 and FY21.
Below is the list of EACVI recurrent courses:

Webinars

Every year EACVI offers a series of interactive one-hour webinars presented and moderated by EACVI representatives, top level experts in the CVI field. EACVI webinars are designed to provide attendees with practical training via relevant clinical cases and live assessment (MCQs).

All our live webinars are reviewed by the European Accreditation Council for Continuing Medical Education (EACCME®) for CME accreditation. Access the programme at: [www.escardio.org/EACVI-webinars](http://www.escardio.org/EACVI-webinars)

Missed the live programme? You can catch up or watch again through the webinars on demand page. [www.escardio.org/EACVI-webinars#recordings](http://www.escardio.org/EACVI-webinars#recordings)

Access is restricted to EACVI Silver Members and FEACVI.

Visit the EACVI YouTube playlist to enjoy a selection of our webinars for free.

**EACVI e-learning programmes**

The EACVI e-learning programmes are based on the EACVI core syllabus of each imaging modality. They provide the knowledge imaging specialists need to be at the cutting edge of each field with didactic tutorials created by leading experts.

These tutorials are a unique means to learn about indications for each technique, receive practical guidance on how to perform, analyse and prepare for the EACVI CVI certification examinations. The aim of the course is for cardiologists to continue their education and readily access one module or the full programme. The courses will additionally provide preparation for the EACVI certification process, which is a certification of excellence.

All EACVI tutorials are accredited for 1 CME Credit by the European Accreditation Council for Continuing Medical Education (EACCME®).

Review the programmes and purchase access at [www.escardio.org/eacvi-e-learning](http://www.escardio.org/eacvi-e-learning).

Five EACVI e-learning programmes are currently available:

- Echocardiography (TTE: 31 tutorials, TOE: 16 tutorials, Focus Cardiac Ultrasound: 9 tutorials)
- Cardiovascular Magnetic Resonance: 10 tutorials
- Nuclear Cardiology: 5 tutorials
- Cardiac Computed Tomography: 5 tutorials
- Multimodality Imaging in Congenital Heart Disease: 9 tutorials

Next set of tutorials will be **3D Echocardiography**.  
*Filming was planned for 2021, to be rescheduled.*

**Education**

**EACVI Imaging toolboxes**

EACVI offers toolboxes to help professionals better manage their patients.

**Toolbox on Cardiomyopathies and athlete's heart**

Discover state-of-the-art practical presentations on imaging modalities and how to implement them in the workup of suspected cardiomyopathies or structural changes related to exercise in athletes.

**Imaging Toolbox on CRT**

The CRT Imaging Toolbox provides a complete educational product for day to day practice that meets professionals’ needs and contains everything you want and need to know about Imaging in Cardiac resynchronization therapy (CRT).

**Multimodality Imaging Toolkit on Aortic Stenosis**

Everything you want to know about imaging aortic stenosis in one unique setting, prepared by the leading specialists. (Access is free for everyone).

**Valvular Imaging Box**

A science hub where all relevant information related to evaluation of valvular diseases can be easily found.

**Contrast Echocardiography Box**

Provides cardiologists, interns and sonographers with a comprehensive understanding of the techniques, usage and safety aspects of contrast echocardiography.

**3D Echo Box**

Designed to help echocardiographers, cardiac surgeons and clinical cardiologists, to interpret 3-dimensional echocardiography (3DE) images and derive information useful in managing their patients.

[www.escardio.org/Imaging-boxes](http://www.escardio.org/Imaging-boxes)

**Access**

Access to the EACVI Imaging toolboxes is restricted to EACVI Silver Members and FEACVI, except specified otherwise.

---

**Coming soon in 2022: EACVI Level 1 Programme**

Basic knowledge for all imaging modalities, based on core syllabus

On-demand short videos, 20+ hours of lectures in total
Education

Certification & Accreditation Committee
Full details available at www.escardio.org/EACVI-certification

Certification

Level 2/3 certification
• Launched in 2003 with TTE
• Theoretical exam + skills assessment
• Now 7 certification programmes are available:
  - TTE
  - TOE (with EACTA)
  - Echo-CHD (with AEPC)
  - CMR
  - CHR-CHD
  - Nuclear Cardiology (with EANM)
  - Cardiac CT
• 9 exams, +1,000 candidates per year

Laboratory accreditation
• Available for Echo in 3 modules
  (standard or advanced)
  - TTE
  - Stress Echo
  - TOE
• Available for CMR in 3 modules
  - CMR
  - CMR-CHD
  - Stress
Education

Certification & Accreditation Committee

Key Figures since 2003
Certification exams - number of candidates

EACVI usually runs 9 exams per year (2 TTE, 2 TOE, 1 CHD Echo, 1 CMR, 1 CHD CMR, 1 Nuc, 1 CCT)
1206 candidates to 9 online exams in 2021!

EACVI Certification exams 2021-2022 - 100% ONLINE

Scientific Initiatives Committee

The goal of the EACVI Scientific Initiatives Committee is to have a global view of what is going on among European countries with regard to guideline implementation, management of patients needing imaging, and the use of imaging in daily clinical practice. This is done mainly through short EACVI Research Network Centres’ surveys, snapshot registries or patient surveys.

3 surveys conducted and 3 papers published:

- EACVI survey on the evaluation of left ventricular diastolic function (May 2021)
- EACVI survey on hypertrophic cardiomyopathy (December 2021)
- EACVI survey on burnout amongst cardiac imaging specialists during the 2019 coronavirus disease pandemic (December 2021)

Visit our webpage for more details or to join the EACVI Scientific Initiatives Centres Network.
Research

Publications

The European Heart Journal - Cardiovascular Imaging (EHJ-CI) is an international, peer reviewed journal. It covers echocardiography, cardiovascular magnetic resonance, computed tomography, nuclear cardiology and invasive imaging. The journal aims to publish the highest quality material, both scientific and clinical, from all areas of cardiovascular imaging. Issues per subscription: 12. 2021 Impact Factor: 9.13

The EACVI Textbook of Cardiovascular Magnetic Resonance
First Edition
Ideal for cardiologists and radiologists new to the field of Cardiovascular Magnetic Resonance, those preparing for ESC certification and those established in the field wishing to gain a deeper understanding of CMR. Takes a practical, disease-oriented approach with treatment of congenital heart disease and GUCH throughout.

The ESC Textbook of Cardiovascular Imaging
Third Edition
The ESC Textbook of Cardiovascular Imaging third edition provides extensive coverage of all cardiovascular imaging modalities. Produced in collaboration with the European Association of Cardiovascular Imaging with contributions from specialists across the globe and edited by a distinguished team of experts, it is a ‘state of the art’ clinically-orientated imaging reference.

The EACVI Echo Handbook
Concise, fact-based and packed with images and illustrations, the EACVI Echo Handbook is designed and written by leading experts in the field of echocardiography for use in the clinical arena. Importantly, the book is closely linked to EACVI recommendations and its Core Curriculum.

The EACVI Textbook of Echocardiography
Second Edition
Evidence-based and corresponding with the latest EACVI recommendations. Emphasis on providing sound management and treatment guidance.
- Fully illustrated with 500 colour images
- Includes access to the version included in Oxford Medicine
- Online, 200 videos and a DVD
- Supported by online content on the ESC learning platform with CME questions for self-assessment.

2022 EACVI Compendium
Recommendations and expert consensus statements by specialists from all cardiovascular imaging modalities, to guide cardiovascular imaging practices and provide the best healthcare experience.
The EACVI Compendium will give you access to reference documents on diverse topics in all cardiovascular imaging techniques.

A new handbook on cardiac computed tomography and another one on nuclear cardiology will be released in September 2022.
EuroCMR 2021 - Quick facts & figures

1,244 total participants
- 1,229 Active delegates (including xxx paying)
- 14 Exhibitors
- 1 Press

83 countries represented
104 faculty members (from 26 countries) for 140 roles in the programme

36 scientific programme sessions
- 21 scientific and educational sessions
- 11 Abstract-based Sessions

326 abstracts & cases submitted
- 178 abstracts submitted + 148 clinical cases
- 145 abstracts and 50 clinical cases accepted

Industry sponsored sessions
- 4 Satellite Symposia

CME credits
5 CME credits from UEMS

Congress Themes
Frontiers in CMR
CMR in Practice
Congenital and cases

516 total participants
- 501 Active delegates (including 386 paying)
- 13 Exhibitors
- 2 Press

55 countries represented
85 faculty members (from 15 countries) for 96 roles in the programme

31 Scientific programme sessions
- 21 scientific and educational sessions
- 9 Abstract-based Sessions

119 abstracts & cases submitted
- 111 abstracts and clinical cases accepted

Industry sponsored sessions
- 1 Satellite Symposium

CME credits
10 CME credits from UEMS

Congress Themes
- From imaging asymptomatic coronary atherosclerosis to guiding coronary interventions
- From guidelines intelligence and from practical “how to?” sessions to MMI in sarcoidosis, amyloidosis, endocarditis.
- From imaging trials to clinical practice

Event platform
- 3 channels streamed
- e-poster gallery on demand for abstracts & clinical cases
EuroEcho 2021 was initially planned to be held in Berlin and online, a first for EACVI. Due to the COVID-19 pandemic, the congress was cancelled onsite 2 weeks before the congress and was confirmed as a 100% online event.

2,945 total participants
- 2,185 Active delegates (attended live)
- 16 Exhibitors

92 countries represented
160 faculty members (from 32 countries) for 242 roles in the programme

60 Scientific programme sessions
- 36 scientific and educational sessions
- 19 Abstract-based Sessions

813 Abstracts & cases submitted
- 592 abstracts and 221 clinical cases submitted
- 501 abstracts and 156 clinical cases accepted

Industry sponsored sessions
- 5 Satellite Symposia

CME credits
9 CME credits from UEMS (live viewing & on-demand)

Congress Main Themes
Valvular Heart Disease & Ischemic Heart Disease
Imaging: Echocardiography & Multi-Modality Sessions

Event platform
- 3 channels streamed
- Research Gateway on demand for abstracts & clinical cases
Membership

**SILVER**

€78/156
(VAT included)

**JOIN OR RENEW**

- Discount on EACVI congresses
- Unlimited access to EACVI congress resources on ESC 365
- Voting rights
- Online access to EHJ-CI
- Discount on certification exams
- Discount on the EACVI educational offer and products
- Access to the Members Lounge at EACVI congresses

**REGULAR**

**FREE**

**JOIN OR RENEW**

- Discount on the online and print versions of the *European Heart Journal - Cardiovascular Imaging* (EHJ-CI)
- Discount on EACVI and ESC textbooks and handbooks
- EACVI newsletter

**Fellow of the EACVI (FEACVI)**

*a symbol of excellence in cardiovascular imaging*

Annual call for applications 15 June – 15 October

**EACVI Silver Membership** can be combined with **ESC Professional Membership** or another Subspecialty Association Silver Membership.

EACVI Imaging Grants

The European Association of Cardiovascular Imaging (EACVI) offers opportunities for young imagers to receive training or research experience abroad in non-invasive imaging modalities at a high standard academic centre, clinical centre or university.

Applications open on 31 March and close on 30 September of each year.

www.escardio.org/EACVI-education#grants

Training Grants

Financial support for three to six months is awarded by the EACVI to help candidates meeting the criteria to develop their skills in a renowned clinical centre or university within an ESC member country other than their own.

Research Grants

A one-year research grant of €25,000 (€30,000 in 2021) is awarded by the EACVI, to help candidates meeting the criteria to access research experience in a renowned academic centre of an ESC member country other than their own.

Grant winners testimonials

“I am extremely thankful to EACVI for this exceptional opportunity, that I think is career-changing and life-changing.”

Dr Jessica Artico, EACVI Research Grant winner 2021

“Educational grants offered by the EACVI are incredible and motivate young cardiologists to go further in their speciality.”
Advocacy

EACVI Imaging Grants winners 2022

EACVI Research Grant

Christian Nitsche
Programme: Multi-modality Imaging for Patient-Identification and Characterization of Dual Pathology Cardiac Amyloidosis and Aortic Stenosis
Supervisor: Thomas Treibel
Host institution: UCL Institute of Cardiovascular Science, CMR Dept, London, UK

Jolien Geers
Programme: Elucidating the central role of fibrosis at the valvular and myocardial level in patients with aortic stenosis
Supervisor: Marc Dweck
Host institution: University of Edinburgh, BHF Centre for Cardiovascular Science, Edinburgh, UK

Mirakhmadjon Mirmaksudov
Programme: Myocardial mechanics after His bundle pacing
Supervisor: Thor Edvardsen
Host institution: Department of Cardiology, Oslo University Hospital, Rikshospitalet and University of Oslo, Norway

Pranav Bhagirath
Programme: Non-invasive assessment of patient-specific conduction pathways and associated arrhythmic vulnerability using virtual hearts; combining high-resolution 3D anatomical substrate characterization and computational modeling in patients with ischemic cardiomyopathy
Supervisor: Martin Bishop
Host institution: Guy and St Thomas NHS Foundation Trust, London, UK

EACVI Training Grant

Satish Ramkumar
Programme: Advanced CMR and Cardio-Oncology Fellowship
Duration: 6 months
Supervisor: Charlotte Manisty
Host institution: Bart’s Health Department of Cardiac Imaging (Cardiac MRI), London, UK

Maria Isabel Gonzalez Del Hoyo
Programme: Multimodality imaging in the Interventional Management of complex structural heart disease
Duration: 6 months
Supervisor: Ralph Stephan von Bardeleben
Host institution: Head Heart Valve Center Mainz, Universitätsmedizin Mainz, Germany

Martina Avesani
Programme: Foetal and advanced echocardiography in Congenital Heart Diseases
Duration: 6 months
Supervisor: Xavier Iriart
Host institution: CHU Bordeaux, Pediatric and Adult Congenital Department, Bordeaux, France

Nicoletta Orphanou
Programme: Multimodality imaging in acute cardiac care
Duration: 6 months
Supervisor: Ali Vazir
Host institution: UZ Leuven, Department of Radiology, Belgium
Host institution: Royal Brompton Hospital, Echocardiography /perioperative care department, London, UK
 Advocacy

Task Forces

FOCUS echo
Chairs: Aleksandar Neskovic (Serbia) & Ivan Stankovic (Serbia)
The main objectives are to provide
• Core Syllabus
• Joint sessions and tracks at respective congresses
• Handbook
and ultimately certification.
Already available: FoCUS Core Curriculum and Core Syllabus, FoCUS tutorials

Interventions
Chairs: Eustachio Agricola (Italy) & Erwan Donal (France)
The main objectives are to provide
• Core Syllabus
• Education
• Handbook

Digital health
Chair: Bernard Cosyns (Belgium)
Role of the taskforce
• Establish a picture of the current situation in terms of digital health in imaging
• Define/anticipate the potential perspectives regarding digital health in imaging
• Evaluate the impact of digital health in imaging for the patient, the healthcare professionals, the industry, the healthcare system, and the governance

Value Based Healthcare
Chair: Steffen E. Petersen (United Kingdom)
Objectives:
• Assess current level of knowledge and application across Europe
• Identify and provide existing resources
• Fill the educational gaps

Women in cardiovascular imaging
Chairs: Julia Grapsa (United Kingdom) & Ana Almeida (Portugal)
Objectives:
• Enhance the careers of women imaging cardiologists by helping creating opportunities
• Attract women as fellows for CV Imaging by promoting effective career opportunities.
• Ensure the parity for women CV imagers, namely in leadership roles and equality compensation
• Promote and support scientific projects for studying women with CV diseases through imaging
• Promote workshops and education sessions with the topic of CV diseases imaging in Women

(Adult) Congenital Heart Disease
Chairs: Giovanni Di Salvo (Italy) & Jolien Roos-Hesselink (The Netherlands)
Objectives:
• Webinars, congenital track at congresses
• Scientific papers, registries
• Communication, interaction with other societies and industry

Regulatory Affairs
Chair: Piotr Szymanski (Poland)
Objectives:
• Current standards for assessing diagnostic performance of imaging systems
• Gaps in the evaluation of diagnostic performance of imaging systems
• Perspectives
Unless stated otherwise, all data mentioned in this report relate to Fiscal Year 2022, i.e. the period between 01 April 2021 and 31 March 2022.

Social media
Get new science and take part in the weekly ECG and clinical case challenges on ESC social media.
