

# Table of Contents

- Preface..... Page 3
- Authors list..... Page 4
- Clinical applications of cardiac computed tomography: a consensus paper of the European Association of Cardiovascular Imaging – part I..... Page 7
- Clinical applications of cardiac computed tomography: a consensus paper of the European Association of Cardiovascular Imaging – part II..... Page 23
- How to assess severe tricuspid regurgitation by echocardiography?..... Page 49
- How to evaluate cardiomyopathies by cardiovascular magnetic resonance parametric mapping..... Page 53 and late gadolinium enhancement
- Radiation safety for cardiovascular computed tomography imaging in paediatric cardiology:..... Page 56 a joint expert consensus document of the EACVI, ESCR, AEPC, and ESPR
- Multi-modality imaging assessment of native valvular regurgitation: an EACVI and ESC council..... Page 67 of valvular heart disease position paper

## From Focus Issue: The Right Heart

- Imaging assessment of the right atrium: anatomy and function..... Page 129
- Right ventricular longitudinal strain in the clinical routine: a state-of-the-art review..... Page 147
- Tricuspid regurgitation: recent advances in understanding pathophysiology, severity grading..... Page 162 and outcome
- Cardiovascular magnetic resonance in autoimmune rheumatic diseases: a clinical consensus..... Page 179 document by the European Association of Cardiovascular Imaging
- EACVI SIMULATOR-online study: evaluation of transoesophageal echocardiography knowledge..... Page 194 and skills of young cardiologists
- How to quantify coronary atherosclerotic plaque using computed tomography..... Page 202
- The year 2021 in the European Heart Journal–Cardiovascular Imaging: Part I..... Page 205
- The year 2021 in the European Heart Journal–Cardiovascular Imaging: Part II..... Page 213
- Multimodality imaging in thoracic aortic diseases: a clinical consensus statement from..... Page 222 the European Association of Cardiovascular Imaging and the European Society of Cardiology working group on aorta and peripheral vascular diseases
