

Final programme Amsterdam Sports Cardiology Course 2020 - Digital edition

When you register for the course, you will get:

On-demand access to all keynote lectures as they are released (until end of February 2021)

Access to the live webinar on August 28 (and the recording of the webinar, until end of February 2021)

The opportunity to digitally interact with the speakers and chairs during the live webinar on August 28

For local participants, physical access to the event on August 28 can be obtained for an additional fee (+ € 50), which includes participation in the local programme and catering

In the month of August, sequential release of recorded keynote lectures:

Inherited cardiomyopathies in athletes: a ticking timebomb? – Prof. William McKenna, MD, PhD / August 10

Exercise imaging in Sports Cardiology: Aiming for a moving target – Assoc. Prof. Andre La Gerche, MD, PhD / August 13

Exercise prescription in cardiomyopathies: beyond the conventional approach – Sabiha Gati, MD, PhD / August 17

Exercise and sports in the era of COVID-19: a practical approach – Assoc. Prof. Michael Papadakis, MD, PhD / August 20

Exercise and the heart: the good, the bad and the ugly – Prof. Sanjay Sharma, MD, PhD / August 24

A live event will be organized at the Johan Cruijff ArenA on August 28th 2020. In light of the COVID-19 pandemic, the event will follow the guidelines of the national health committee (RIVM) to ensure a safe participation. This event will kick off with a local programme in which the implications of sports and COVID-19 are highlighted, and will end with interactive case discussions. **This programme will only be available to local participants.** Following the local programme, the live webinar will be broadcast. The webinar will be accessible for all registered participants across the world. It will include 3 unique case presentations, with subjects that directly tie in to the keynote lectures. The cases will be discussed by the local chairs, the live audience, and digitally. Registered participants will be able to interact with the speakers through the digital chat to participate in the discussion. The day will end on a competitive note with an ECG-quiz presented by Professor Arthur Wilde.
