

European Association of Percutaneous  
Cardiovascular Interventions Nominating Committee

Dear Members of the EAPCI Nominating Committee,

I'm writing you to express my interest in serving as a representative for PCR on the EAPCI board. With a deep-rooted commitment to cardiovascular intervention and a wealth of experience garnered from my longstanding involvement in both EAPCI and PCR, I would like to contribute to the collaborative efforts aimed at improving patient care.

Since its foundation in 2006, EAPCI has been at the forefront of fostering collaboration and innovation in interventional cardiology. Through its dedication to postgraduate education, and promotion of clinical research, EAPCI has played a critical role in improving patient access to device-based therapies and driving excellence in cardiovascular care.

Similarly, PCR has been absolutely involved in facilitating knowledge exchange and skill development within the interventional community through its diverse range of activities. By connecting practitioners across the globe, PCR has helped disseminate best practices and advance the standard of care for patients worldwide.

If elected as a representative for PCR on the EAPCI board, I aim to achieve the following objectives:

1. **Effective Representation:** I am committed to representing PCR on the EAPCI board to the best of my ability, drawing upon my extensive experience and insights gained from my involvement in both organizations.
2. **Further enhance collaboration:** I intend to strengthen the bridges of collaboration between EAPCI and PCR, leveraging my understanding of the functioning of both entities and fostering partnerships driven by the values of generosity and empathy.
3. **Perfect Synergy:** I seek to facilitate collaboration between EAPCI and PCR with the purpose of leveraging the strengths and resources of the two organizations to achieve mutually beneficial results and ultimately advance the field of interventional cardiology for the benefit of patients

In conclusion, I am deeply committed to advancing the mission and objectives of both EAPCI and PCR, and I am confident that my unique combination of experience, dedication, and vision will enable me to make significant contributions to the collaborative efforts between the two organizations to the benefit of patients. I am honored to be considered for this important position and look forward to the opportunity to serve the interventional cardiology community.

Thanks for your time and consideration.

Sincerely,
