EAPCI Treasurer 2024-2026 Motivation Letter

Dear EAPCI Board and Esteemed EAPCI Members,

I am applying for the Treasurer position within EAPCI, motivated by a strong commitment to enhance our society's financial stability and significantly contribute to advancing interventional cardiology through strategic financial oversight.

My objectives are directly aligned with EAPCI's mission:

1. Strategic Financial Planning for EAPCI Education and Research:
 - Allocate funds to maximize the impact of **educational** programs, grants, and webinars, facilitating the achievement of **competency** in interventional cardiology.
 - Work closely with the President and the Board to support **research** that advances clinical practice and influences policy.
2. Drive Effective Fundraising and Resource Allocation:
 - Innovate in fundraising to facilitate **partnerships** that align with our mission.
 - Reduce **membership** fees for broader access to EAPCI offers and benefits to equally advance research and training across ESC countries.
 - Allow funding to prespecified EAPCI **Committee** meetings.
3. Boost Transparency and Engagement in Fundraising:
 - Implement transparent **reporting** and compliance to strengthen the trust of our donors and partners.
 - Engage the EAPCI Member Working Groups in understanding the financial needs of member **countries** and cooperate actions in this domain.
 - Conduct surveys to understand member countries' needs better, ensuring funds are used effectively to overcome **barriers** in research and education.

I am eager to support EAPCI towards achieving these objectives, aiming to expand our resources and capabilities to support the ESC Interventional Cardiology community.

Thank you for considering my application.

With kind regards,

Radoslaw Parma, MD PhD
FESC
