

Application for the following position in the EHRA Board:

Nominating committee

1. Your Identity

Title: MD, PhD

Family Name(s): FAUCHIER

First Name(s): Laurent

Birth Date: July 9th, 1966

Institute/Organisation: Centre Hospitalier Universitaire et Faculté de Médecine, TOURS

Department: Cardiology

Address: Centre Hospitalier Universitaire Trousseau
Avenue de la République

Post Code/Zip: 37044

City: TOURS

Country: FRANCE

Country:

2. General Curriculum Vitae (300 words max)

Present position:

- Director of the Cardiovascular and Thoracic Medicine and Surgery Departments, Centre Hospitalier Universitaire Trousseau, Tours
- Electrophysiology Specialist in the Cardiology Dept, Centre Hospitalier Universitaire Trousseau, Tours.
- Professor of Cardiology, University François Rabelais, Tours.

Education:

- MD (1995) and PhD degrees (2001, doctoral thesis) at University François Rabelais, Tours.
- Residency in Cardiology at University Hospital, Tours (1990-1995).
- Further training in the Cardio Genetic department (Pr. M. Komajda) in University Hospital Pitie Salpetriere, Paris (2002-2003)
- Certified (log book and exam) by the French Society of Cardiology in Electrophysiology and Cardiac Pacing (1998)

Scientific Societies Involvement:

- EHRA silver member
- Fellow of ESC
- HFA member
- President of the Working Group on Electrophysiology & Arrhythmias of the French Society of Cardiology. (2020-2021).

Research:

- Main research interest:
 1. Electrophysiology and ablation of atrial and ventricular arrhythmias, with special interest on management of atrial fibrillation.
 2. Sudden death and ICDs.
 3. Cardiovascular drugs including antiarrhythmic and anticoagulants.
- More than 400 articles published in indexed journals, such as the Lancet, Journal of the American College of Cardiology, European Heart Journal, Circulation and Europace.
- Author of more than 20 books chapters on HR disorders
- More than 300 contributions as congress abstracts in major cardiology and HR congresses (including 170 as first or last author)
- Steering committee member, national coordinator and investigator of national and international studies and randomized multicentre trials.
- Director of 25 MD thesis

3. Describe previous experience(s) within EHRA, ESC or your National Cardiac Society

European Heart Rhythm Association (EHRA)

- Member of the Scientific Document Committee (2013-2018)
- Co-Chairperson of the Scientific Document Committee (2017-2018)
- Member of the Executive committee for the EORP-AF study: EurObservational Research Programme - Atrial Fibrillation Long-Term (2013- present)

European Society of Cardiology (ESC)

- Member of the Committee for Practice Guidelines for the term 2020-2022
- Member of the EORP (EURObservational Research Programme) Advisory Committee for the term 2020-2022

French Society of Cardiology

- President of the Working Group on Electrophysiology & Arrhythmias. (2020-2021).

4. Why are you motivated to join the EHRA Executive Board (150 words max)?

Beyond daily practice and the huge satisfactions when treating patients efficiently and being able to reassure them, I have always been interested in improving things and organizing our work of cardiologist and electrophysiologist. This is why, together with enthusiastic colleagues, I followed and then when possible initiated, first in my country France and later at the European level, initiatives to promote and improve our profession, which may finally and hopefully result in benefits to our patients. At the same time, there is no doubt that collaborations make strength. I always sought to promote and improve national and international collaboration in Europe and the ESC area. I am glad to see all the improvements and achievements EHRA has made in the recent decade, which made an optimal visibility for European physicians working in the field of cardiac pacing and electrophysiology. There have been many satisfying results there and it is a privilege and opportunity to contribute to this together with many colleagues (several of them are now good friends). Much have been done but we still need to keep improving together.

5. How will you combine your EHRA position with your daily clinical/research workload?

Please note that we expect you to be:

- Active career at the time of taking office
- In clinical practice (for at least 30%) at the time of application

I have been involved in the French Society of Cardiology, ESC and EHRA for many years in different positions. Therefore, I am already used to devote a significant part of my time to scientific societies and EHRA. This has also given me significant experience to deal with the duties and tasks close to those of the EHRA nominating committee. This may result in an efficient way to deal with new tasks and roles since I am quite familiar with procedures and how things are managed in scientific societies such as EHRA and the European Heart house. Finally, I have asked for a reduction of some of my clinical duties in order to have more time for research and my tasks in scientific societies.

6. Please list your conflicts of interest

- Direct personal payments (speaker fees, honoraria, advisory board fees, consultancy, investigator...)
 - Company (one company): AstraZeneca
 - Product or therapeutic area: Diabetes
 - <10 K€/year

 - Company (one company): Bayer
 - Product or therapeutic area: Atrial fibrillation
 - <10 K€/year

 - Company (one company): BMS-Pfizer
 - Product or therapeutic area: Atrial fibrillation
 - <10 K€/year

 - Company (one company): Boehringer Ingelheim
 - Product or therapeutic area: Atrial fibrillation
 - <10 K€/year

- Company (one company): Medtronic
 - Product or therapeutic area: Pacemakers and ICDs
 - <10 K€/year

 - Company (one company): Novartis
 - Product or therapeutic area: Heart failure
 - <10 K€/year

 - Company (one company): Novo
 - Product or therapeutic area: Diabetes
 - <10 K€/year

 - Company (one company): XO
 - Product or therapeutic area: Antiarrhythmic
 - <10 K€/year

 - Company (one company): Zoll
 - Product or therapeutic area: sudden death
 - <10 K€/year

 - Payments to your institution (speaker fees, honoraria, advisory board fees, consultancy, activities executed by your department for the sponsor or investigator initiated and funded by an unconditional grant from the sponsor...)
 - Nothing to declare

 - Receipts of royalties for intellectual property
 - Nothing to declare
- Add as many as necessary**

Position of influence declaration:

- Direct substantial shareholding or direct financial interest in healthcare, media, education companies or companies in relationship (suppliers or in competition with ESC or in contradiction with ESC mission)
- Employment in healthcare institution (part time or full time)
- Membership or affiliation to political/pressure group associations related to the field of cardiology
- Any potential interest related to the position applied for
- Nothing to declare
