

## **EHRA Young EP (YEP) National Ambassador**

### **| Mission**

To contribute to the creation of a global network of young electrophysiologists, stimulate involvement, and guide the members in education and professional development in their respective regions.

### **| Supporting activities**

**Promote** EHRA among motivated young electrophysiologists and device specialists.

- Encourage others to become [EHRA members](#) and be part of [the Young EP community](#).
- Promote during national congresses, meetings and educational courses.
- Leverage your personal network including young fellows and researchers.

**Link** your national cardiac society or the national working group to the EHRA Young EP community; submit proposals for joint sessions.

**Represent** your country within EHRA activities (e.g. EP Working Group of the moment) and during EHRA events (Young Ambassadors Summit and EHRA Congress) and share local experiences. **Represent** EHRA in your country and during the annual event of your National Cardiac Society or EP Working Group meetings.

**Inform** and motivate others to participate in the EHRA and YEP activities such as congresses, webinars, courses and training opportunities (EP Insight, Fellowships, Educational grants etc).

**Motivate** your local peers to become EHRA-certified specialists or join the EHRA Recognised Training Centres network.

**Participate** in EHRA congresses by submitting abstracts, taking an active part in the ECG competition and other dedicated sessions or networking events.

**Be active** on social media (LinkedIn, Facebook, Twitter) taking part in discussions.

**Collaborate** with the YEP Committee and EHRA Scientific Initiatives Committee by submitting your research proposals.

**Critically reflect** and give feedback on EHRA Young EP activities and be proactive by sharing ideas for improvement or future projects.
