

### ESC CONGRESS 2017 – ABSTRACT REVIEWING COMMITTEE

We would like to acknowledge the valuable contribution of the reviewing committee members for grading the abstracts submitted to ESC Congress 2017.

Reviewers are at all time unaware of the name of the authors, institutions and country of origin the abstracts.

Each abstract receives between 8–10 reviews.

This process is essential to the evaluation and pre-selection of the abstracts. The Congress Programme Committee finalises the selection and assigns abstracts to specific sessions during the Abstract Selection Meeting
