OF ECONOMICS AND  
POLITICAL SCIENCE ■

## Entry requirements for

### Executive MSc Health Economics, Outcomes and Management in Cardiovascular Sciences

A 2:1 undergraduate degree in any discipline (or [overseas equivalent](#)).

A minimum of 3 years' relevant work experience. Experience in cardiovascular sciences either as a practicing cardiologist or as a health economist is desirable. Outstanding candidates with different backgrounds in health care are strongly encouraged to apply.

Standard level of English: You meet the standard level of English if:

- 1) You are a national of Canada (whose first language is English) or one of the UKVI list of majority English-speaking countries (see link for details) or
- 2) You have successfully completed an undergraduate degree (of at least three years duration), a postgraduate taught degree (of at least one year) or a PhD in one of those countries or
- 3) You have passed a recognised English language test at an appropriate level. The most common qualifications are the IELTS or TOEFL tests. You do not need to have the required marks when you apply, but they would form a condition of any offer issued, and would have to be achieved before registration.

A resume or CV, outlining your professional experience.

A personal statement (approximately two A4 pages). This MSc is offered in collaboration with the European Society of Cardiology. If you are a member of the European Society of Cardiology (or Fellow, or involved with European Society of Cardiology activities), please include your membership number in your personal statement. Please also state whether you would like to be considered for a European Society of Cardiology scholarship and whether participation would be contingent on receiving a scholarship.

Two references, ideally one academic and one professional. If you graduated from your most recent academic study before January 2009 and no academic references are available, you may supply two professional references.

The GRE/GMAT tests are not a formal requirement for admission to this programme. However, if you have taken one of these tests and you believe your results will support your application, please include them.
