ACUTE CARDIOVASCULAR CARE ASSOCIATION (ACCA)  
CERTIFICATION IN ACUTE CARDIOVASCULAR CARE PART II

ICCU/CICU DIRECTOR FORM

The roles of the local supervisors and ICCU/CICU director are critical in the certification process. They should be recognised by the National Training Authorities for supervision and training in cardiology and/or intensive care medicine, depending on the part of the curriculum being addressed. If you are not sure as to the suitability of the person you wish to appoint as your nominated ICCU/CICU director, please contact us.

The ACCA Education Committee may consult with the relevant National Society to validate the choice of ICCU/CICU director. In very rare circumstances, the Certification and Accreditation Assessment Committee may suggest another ICCU/CICU director to the candidate.

Candidates must submit this ICCU/CICU director form online as part of the second step of the certification process. Please have the form signed by your ICCU/CICU director and save an electronic copy which you will be able to upload online.

We recommend that you keep a copy for your records.

CERTIFICATION IN ACUTE CARDIOVASCULAR CARE, PART II

Candidate name: ......................................................................................................................................................

ACCA examination date: ...........................................................................................................................................

ICCU/CICU Director Name and Surname: ......................................................................................................................

ICCU/CICU Director Qualifications................................................................................................................................
