

Preliminary Programme

Thursday 9th June

12:30-13:45 Lunch

EAPCI Fellows Course kick off

13:45 - 13:50 Welcome and Opening
13:50 - 13:55 Introducing EAPCI
13:55 - 14:00 Introducing the EAPCI Young Initiative
14:00 - 14:05 Introducing the EAPCI Fellows Course 2016

Session I - Basics: Tools and Techniques

14:05 - 14:15 [How to] Vascular access (femoral and radial): the key to a successful procedure
14:15 - 14:25 [Toolbox] Diagnostic and guiding catheters: making the right choice, with case examples
14:25 - 14:35 [How to] Tips and tricks for optimizing your diagnostic coronary angiogram
14:35 - 14:45 [How to] Nuts and bolts of right catheterization (why, when and how)
14:45 - 14:55 [How to] A practical guide to protect yourself and your patient from radiation injury
14:55 - 15:05 [Toolbox] Choosing your guidewire for each scenario, with case examples
15:05 - 15:15 [Toolbox] All about balloons: semicompliant, noncompliant, scoring, cutting, drug-coated
15:15 - 15:30 [Toolbox] All about stents and scaffolds: a 2016 perspective
15:30 - 16:05 Discussion and Q&A / Summary

16:05 - 16:25 Coffee Break

Session II - Diagnostic arsenal in the cathlab

16:25 - 16:30 IVUS: Principle and case example
16:30 - 16:35 OCT: Principle and case example
16:35 - 16:50 [When and how] IVUS and OCT
16:50 - 16:55 FFR: Principle and case example
16:55 - 17:10 [When and how] Non-invasive functional tests, FFR, iFR
17:10 - 17:45 Discussion and Q&A / Summary

Friday 10th June 2016

Session III - Tips and trick for elective percutaneous coronary intervention in selected angiographic scenarios

8:30 - 8:35 [Case] Multivessel disease
8:35 - 8:45 [How to treat] Multivessel disease (with emphasis on strategies, using case examples)
9:30 - 9:35 [Case] Bifurcation
9:35 - 9:50 [How to treat] Bifurcations (a standardized, experience-based approach)
9:50 - 9:55 [Case] Left main
9:55 - 10:05 [How to treat] Left main (a data-free lecture with case examples and technical considerations)
10:05 - 10:10 [Case] Chronic total occlusions
10:10 - 10:25 [How to treat] Chronic total occlusions (including a primer on antegrade recanalization)
10:25 - 10:35 [Toolbox] Rotational atherectomy in your practice
10:35 - 11:10 Discussion and Q&A / Summary

11:10 - 11:40 Coffee Break

Session IV - Coronary artery disease: beyond percutaneous Coronary intervention

11:40 - 11:55 A 2016 update on antiplatelet therapy for elective PCI and invasively managed ACS
11:55 - 12:10 A 2016 update on anticoagulant therapy for elective PCI and invasively managed ACS
12:10 - 12:25 Post-PCI management: long-term therapy and follow-up
12:25 - 13:00 Discussion and Q&A / Summary

Session IV - Coronary artery disease: beyond percutaneous coronary intervention

- 11:40 - 11:55 A 2016 update on antiplatelet therapy for elective PCI and invasively managed ACS
11:55 - 12:10 A 2016 update on anticoagulant therapy for elective PCI and invasively managed ACS
12:10 - 12:25 Post-PCI management: long-term therapy and follow-up
12:25 - 13:00 Discussion and Q&A / Summary
13:00 - 14:20 Lunch

Session V - Percutaneous coronary intervention in acute coronary syndromes

- 14:20 - 14:25 [Case] STEMI
14:25 - 14:40 [How to treat] STEMI: recommendations and practical strategies
14:40 - 14:45 [Case] NSTEMI-ACS
14:45 - 15:00 [How to treat] NSTEMI-ACS: recommendations and practical strategies
15:00 - 15:05 [Case] Cardiogenic shock
15:05 - 15:20 [How to treat] Cardiogenic shock: recommendations and practical strategies
15:20 - 15:55 Discussion and Q&A / Summary

15:55 - 16:25 Coffee Break

Session VI - Troubleshooting in the cathlab

- 16:25 - 16:35 [How to] Preventing and managing complications: focus on coronary perforations
16:35 - 16:45 [How to] Preventing and managing complications: focus on coronary dissections
16:45 - 16:55 [How to] Preventing and managing complications: focus on vascular access problems (femoral and radial)
16:55 - 17:05 [How to] Preventing and managing complications: focus on acute thrombotic closure and no reflow
17:05 - 17:30 Discussion and Q&A / Summary

Saturday 11th June 2016

Session VII - Non-coronary interventions I

- 8:30 - 8:40 [How to] A stepwise explanation of the PFO closure procedure
8:40 - 8:50 [How to] A stepwise explanation of the LAAC closure procedure
8:50 - 9:00 [Toolbox] Update on latest PFO and LAA closure technologies
9:00 - 9:25 Discussion and Q&A / Summary

9:25 - 9:55 Coffee Break

Session VIII - Non-coronary interventions II

- 9:55 - 10:05 [How to] A stepwise explanation of the TAVI procedure
10:05 - 10:20 [How to] Preventing and managing complications: focus on TAVI
10:20 - 10:30 [Toolbox] Update on latest TAVI technologies: a 2016 perspective
10:30 - 10:40 [How to] A stepwise explanation of the Mitraclip procedure
10:40 - 10:50 [Toolbox] Update on latest technologies for mitral regurgitation (repair and replacement): a 2016 perspective
10:50 - 11:15 Discussion and Q&A / Summary

Session IX - Research time! How to interpret a study, how to write your paper

- 11:15 - 11:25 [How to] Critical reading of a trial, with case examples from recent literature
11:25 - 11:35 [How to] Drafting your paper: how to increase your chance of success
11:35 - 11:50 Discussion and Q&A / Summary

Wrap up

- 11:50 - 12:00 [Lecture] The story from now on: what can we expect from the future of interventional cardiology?
12:00 - 12:05 Wrap up from the Young EAPCI Perspective
12:05 - 12:10 Wrap up from the EAPCI Perspective

12:10 - 13:00 Snacks & Departure
