

Scientific Programme

EAPCI ETP for European Fellows on Coronary Intervention

This educational programme will be submitted to the European Board for Accreditation in Cardiology (EBAC)

DAY 1 – FRIDAY 19 JUNE, 2015

10:00-10:05	Opening	S Windecker
10:05-10:10	Introducing EAPCI	S Windecker
10:10-10:15	Introducing the EAPCI Young Initiative	D Capodanno

Opening lecture

10:20-10:35	The story so far: the 40-years of PCI	MC Morice
-------------	---------------------------------------	-----------

10:35-11:55 Part I – Basics and tools

Chairperson	J Mehilli
Discussants	S Windecker, M Sabate, E Barbato, G Stankovic
Facilitator	M Radu

10:35-10:50	PCI in stable CAD: Indications and Evidences	S Windecker
10:50-11:05	Radiation Risk Management: How to measure? How to reduce?	M Sabate
11:05-11:15	Vascular access: the key to a successful procedure	E Barbato
11:15-11:25	Catheters and wires: technical characteristics you need to know	G Stankovic
11:25-11:35	Stents and scaffolds: technical characteristics you need to know	M Sabate
11:35-11:55	Moderated discussion	M Radu

11:55-13:00 LUNCH BREAK

13:00-14:20 Part II – Diagnostic arsenal in the cathlab

Chairperson	S Windecker
Discussants	E Barbato, J Escaned, MC Morice, M Radu
Facilitator	G Toth

13:00-13:07	CASE I – IVUS	S Brugaletta
13:08-13:15	CASE II – OCT	M Radu
13:15-13:35	When and how: IVUS, OCT, NIRS	J Escaned
13:35-13:42	CASE III – FFR	G Toth
13:45-14:00	When and how: non-invasive functional tests, FFR, iFR	E Barbato
14:00-14:20	Moderated discussion	G Toth
14:20-14:45	COFFEE BREAK	

14:45-16:40 Part III – Tips and tricks: PCI techniques

Chairperson	MC Morice
Discussants	A Kastrati, G Stankovic, A Baumbach, H Thiele
Facilitator	S Brugaletta

14:45-14:52	CASE IV – Multivessel disease	E Barbato
14:52-15:05	How to treat: Multivessel disease	A Kastrati
15:05-15:12	CASE V – Bifurcation	A Baumbach
15:12-15:30	How to treat: Bifurcations	G Stankovic
15:30-15:37	CASE VI – Left main disease	D Capodanno
15:37-15:50	How to treat: Left main disease	A Baumbach
15:50-15:57	CASE VII – CTO	J Mehilli
15:57-16:10	How to treat: Chronic Total Occlusion	J Escaned
16:10-16:07	CASE VIII – Calcified lesion	G Stankovic
16:07-16:20	How to use: Rotablator, cutting and scoring balloons	H Thiele
16:20-16:40	Moderated discussion	S Brugaletta

16:40-17:10 COFFEE BREAK

17:10-18:00 Part IV – Interventional pharmacology

Chairperson	A Kastrati
Discussants	J Mehilli, E Barbato, S Windecker
Facilitator	D Capodanno

17:10-17:25	Antiplatelet therapies	D Capodanno
17:25-17:40	Anticoagulants and antidotes	J Mehilli
17:45- 18:00	Moderated discussion	D Capodanno

DAY 2 – SATURDAY 20 June, 2015

8:00-9:50 Part V – Acute coronary syndromes

Chairperson	S. Windecker
Discussants	A Baumbach, MC Morice, H Thiele
Facilitator	M Radu

8:00-8:07	CASE IX – STEACS	M Sabate
8:07-8:25	PCI in STE-ACS: Evidences and Strategies	MC Morice
8:25-8:32	CASE X – NSTEMACS	J Escaned
8:32-8:50	PCI in NSTEM-ACS: Evidences and Strategies	A Kastrati
8:50-9:10	PCI in ACS: tricks, tips and specific devices	A Baumbach
9:10-9:17	CASE XI – Cardiogenic shock	H Thiele
9:17-9:30	PCI in ACS: management of cardiogenic shock	H Thiele
9:30-9:50	Moderated discussion	M Radu

9:50-10:10 COFFEE BREAK

Chairperson	A Baumbach
Discussants	J Escaned, J Mehilli, M Sabate
Facilitator	G Toth

10:10-10:50 Part VI – Pre and post-procedural management

10:10-10:30	Post-procedural management: long-term therapy and follow-up	M Radu
10:30-10:50	Special considerations: diabetes, elderly, renal insufficiency, etc.	M Sabate

10:55-12:05 Part VII – Complications: prevent it or solve it

10:55-11:02	CASE XII – Complication I	S Brugaletta
11:02-11:20	Procedure-related complications: Troubleshooting I	J Escaned
11:20-11:27	CASE XIII – Complication II	G Toth
11:27-11:45	Procedure-related complications: Troubleshooting II	J Mehilli
11:45-12:05	Moderated discussion	G Toth

12:05-13:20 LUNCH BREAK

Chairperson	MC Morice
Discussants	A Kastrati, J Mehilli, A Baumbach, H Thiele
Facilitator	S Brugaletta

13:20-14:40 Part VIII – Non-coronary interventions

13:20-13:40	Non-coronary interventions: update on latest TAVI technologies	S Windecker
13:40-14:00	Non-coronary interventions: update on latest mitral technologies	A Kastrati
14:00-14:20	Non-coronary interventions: update on latest appendage technologies	J Mehilli
14:20-14:40	Non-coronary interventions: new kids on the block	A Baumbach
14:40-15:05	Moderated discussion	S Brugaletta

15:05-15:15 COFFEE BREAK

15:15-16:00 Part IX – Statistics and interventional cardiology

Chairpersons	S Brugaletta, M Radu
--------------	----------------------

15:15-15:35	A statistical critique of recent interventional cardiology trials	D Capodanno
15:35-15:55	How to design a study, how to do accurate statistics	E Barbato

Closing Lecture

15:55-16:15	The story from now on: what can we expect from the next decades	MC Morice
16:15-16:20	Wrap up	S Windecker
