**5. Why are you interested in joining the ACNAP Board and what would you like to achieve if you were elected (300 words max)?**

Dear Professors,

As a young and motivated individual I am extremely interested in submitting an application for the advertised ACNAP Councillor (Allied Professional representation)

**I am a professional member of ESC, and silver member of ACNAP**, and a very involved member in ACNAP activities generally.

I am a lecturer of Cardiac rehabilitation in Cairo University since May 2011 till now. Regarding my motivations behind being a national ambassador of Egypt, First, I have a long hard experience with the underutilization of the cardiovascular nursing and allied professionals in Egypt. However, we have many well educated nurses here, unfortunately; they are underrepresented and have no enough space to share in ESC activities; thinking that they have to be a member in Egyptian cardiac society at first before being a member in ESC.

Knowing that, Egyptian cardiac society is exclusively for cardiologists who hold master degree at least, can be explanatory enough to know the exact reason behind the underrepresentation of nurses nor allied professionals from Egypt in ESC, and consequently in ACNAP.

Secondly, as a very active member in almost all ESC associations and councils since 2014, and a former nursing grant awardee, I can tell a lot about how it is worth it for us to be involved in such a great organization, and how we can benefit at all levels, starting from hearing of our voices as nurses and allied professionals up to unlimited educational and training opportunities. In addition, I can spotlight on the importance of that education, and how working according to ESC guidelines differed in my career.

Thirdly, I have read carefully all the councilor responsibilities and can ensure that I can do it well

In addition, being an academic also would facilitate the broadcasting of ACNAP messages between our staff members who are physiotherapists and nurses basically.

Thank you in advance for your time,

Hady Atef
