Welcome to CCNAP!

Over 2,500 nurses and allied professionals have chosen to become members of CCNAP.

Our mission is to promote excellence in cardiovascular nursing and allied professions through practice, education and research.
To achieve our mission, we have set up committees for our activities and provided our members with opportunities to further their education and research projects.

If you are not already a member, why not become one now!

HOW WE WORK

CCNAP has 7 committees and 1 central Board to ensure the functioning of its activities.

- Programme Committee: scientific programmes
- Science Committee: research capacity and scientific activity
- Nominating Committee: election process
- National Societies Committee: collaboration with cardiovascular nursing professionals in Europe
- Education Committee: core curriculum in nursing
- Collaboration outside Europe
- UNITE: international research studies
- Editorial Board of EJCN: dissemination of research and best practice
- AHA Nursing Council: Preventive Cardiovascular Nurses Association

Annual EuroHeartCare Congress

• This year in Jönköping 18-20 May – ‘Team Work For Excellence In Cardiovascular Care’
• Opportunity to build and engage with your professional network
• Showcase your research
• Access the latest in cardiovascular research
• Attend pre-conference research & scientific workshops

EuroHeartCare 2018: More info soon!

www.escardio.org
FOR OUR MEMBERS

CCNAP has opportunities for its members to further their education and research projects

• Post-doctoral Mentorship Awards
• Nursing / Allied Professional New Investigator Award
• Awards for research at the EuroHeartCare CCNAP annual congress
• Travel awards for the EuroHeartCare CCNAP annual congress
• Travel awards for ESC Congress (the world’s premier conference in cardiovascular diseases)
• Reduced rate for the European Journal of Cardiovascular Nursing
• Reduced fee for EuroHeartCare

Our members are welcome to:

• participate in creating and organising scientific activities via the Science Committee
• contribute to education in cardiovascular nursing with the Education Committee
• propose sessions for CCNAP scientific programmes with the Programme Committee

FOR OUR MEMBERS

We encourage networking
CCNAP has permanent links with national societies of cardiovascular nursing throughout Europe and beyond. We encourage collaboration among our members. **New! CCNAP Member Directory**

We enhance your work
We keep you up to date with our activities with our quarterly newsletter.

You are welcome to send your contributions to the CCNAP newsletter and request publication of your articles in the European Journal of Cardiovascular Nursing.

As a member of CCNAP you also have access to the membership benefits of the European Society of Cardiology.

Contact: councils@escardio.org
CCNAP produces statements that can help researchers, educators and practitioners in their activities to improve patient care.

‘Research in Cardiovascular Care’, a position statement of the Council on Cardiovascular Nursing and Allied Professions of the European Society of Cardiology (CCNAP), has been published in the February 2014 issue of the European Journal of Cardiovascular Nursing (EJCN).

We are all moving towards the same goal

We are pleased to have you with us!
