22nd April 2009: Evidence Based Practice in Cardiovascular Disease Prevention and Rehabilitation

From 8.45 Coffee & Registration
9.15-9.30 Welcome and Opening: Professor Christi Deaton (Chair of Council on Cardiovascular Nursing and Allied Professions) and Professor David Wood (President of the European Association for Cardiovascular Prevention and Rehabilitation)

**Theme 1: Background and evidence; The EUROACTION cardiovascular prevention and rehabilitation programme**

9.30-10.15 Preventive cardiology – the vision for cardiovascular disease prevention
   *Professor David Wood*

10.30-11.00 The EUROACTION programme in preventive cardiology
   *Dr Kornelia Kotseva*

11.00-11.30 TEA BREAK

11.30-11.45 The evidence for Preventive Cardiology
   *Dr Kornelia Kotseva*

**Theme 2: Family screening and assessment**

11.45-13.15 How to assess cardiovascular risk, smoking, diet, physical activity and psychosocial health: Jennifer Jones and the faculty
   - Self report methods for smoking, diet and physical activity
   - Estimating CVD risk
   - Chester Step Test
   - 24 hour recall, BMI, Waist Hip Ratio, Waist Circumference
   - Health related quality of life

13.15-14.15 LUNCH

14.15-15.15 How to assess continued

**Theme 3: The Lifestyle Intervention**

15.15-16.30 Behaviour change and motivational interviewing: Annie Holden

16.30-16.45 TEA BREAK

16.45-18.00 An example of a structured non-equipment based exercise programme for home or in the community*: Annie Holden and the faculty

18.00 Drinks reception and opportunity to network

*Please note there is a practical element to the course. To participate in the physical activity workshops appropriate footwear and loose comfortable clothing will be required*
**23rd April 2009: Turning lifestyle theory into practice**

**Theme 3: The Lifestyle Intervention**

Course description:

- This course aims to equip nurses, physiotherapists, dietitians, exercise and physical activity specialists, cardiologists, general practitioners, occupational physiotherapists and other health professionals with the necessary knowledge and practical skills for implementing a family based preventive cardiology programme.
- The EUROACTION model, recently published in the Lancet (Wood et al, 2008), is described in detail. EUROACTION showed that a nurse-managed multidisciplinary team approach, coupled with the support and involvement of a patient’s partner and family, can yield significant lifestyle improvements and risk factor reductions in coronary patients and patients at risk of developing cardiovascular disease.
- This course is delivered by the cardiology, nursing, dietetic, physiotherapy and physical activity leads for the EUROACTION programme.

General Application Information:
This course is being run in conjunction with the 9th Annual Spring Meeting on Cardiovascular Nursing ‘Addressing the Challenges in Cardiovascular Care’ (24 - 25, April 2009). To register for the Spring meeting visit http://www.escardio.org/congresses/cardio-nursing-conference

- Precourse location
  The Mount Herbert Hotel, Herbert Road, Sandymount, Dublin 4.
  Tel: +353 (0)1 6142000 http://www.mountherberthotel.ie/
  This hotel is within 10 minutes walk of the Royal Dublin Society (RDS) where the Spring meeting is being held.

- Language: The official language will be English.

- Pre-Course Registration fee (This fee includes all course materials and refreshments. The fee does not include accommodation.)

- Registration
Applications to the Pre-course can only be made via email or post. All delegates must complete the application form provided.

- Accommodation
Accommodation at the Mount Herbert Hotel can be made on application to the Precourse. For those attending the Spring meeting at the RDS special rates at the Spring meeting hotels can be booked for the additional nights through: http://www.escardio.org/congresses/cardio-nursing-conference
The Council on Cardiovascular Nursing and Allied Professions

SPRING MEETING PRECOURSE
‘HOW TO SET UP AND RUN AN EVIDENCE BASED PREVENTIVE CARDIOLOGY PROGRAMME’

CARDIOVASCULAR DISEASE PREVENTION AND REHABILITATION
AN INTRODUCTION TO THE EUROACTION MODEL
The Mount Herbert Hotel, Dublin
22nd – 23rd April 2009

Payment:

Cheques: All payments by cheque must be made payable to: ‘THE PREVENTIVE CARDIOLOGY TRUST’ and must be in sterling.

BACS: For BACS payments our account details are as follows:

Account: The Preventive Cardiology Trust Account No 2
Account No: 00307073
Sort Code: 30 97 80
Bank: Lloyds TSB plc
High Street Southampton Branch
19 High Street
Southampton SO14 2SE
Swift (BIC) Code LOYDGB21032
IBAN: GB 20 LOYD 3097 8000 307073

Cancellation
The Precourse only accepts written cancellations by post, mail or fax.

Important: No place can be secured unless full payment is received. Attendance on the course will not be permitted in instances where payment has not been received. In the event of the cancellation of a course the full registration fee will be refunded. The European Society of Cardiology, The Council on Cardiovascular Nursing and Allied Professions and the Preventive Cardiology Trust are not liable for any further costs incurred.

For further information in relation to the EUROACTION course contact: Jennifer Jones, Preventive Cardiology Training and Education Coordinator, Department of Cardiovascular Medicine, 5th Floor, Imperial College, Charing Cross Campus, Fulham Palace Road, London, W6 8RF, United Kingdom. Tel: +44 (0)7815058599 or J.Jones@imperial.ac.uk

- The largest ever European-wide preventive cardiology project, EUROACTION spanned eight countries and 24 hospital and general practice centres, in a cluster randomized controlled trial.
- The project addressed the cardiovascular health of over 10,000 coronary and high risk patients and their partners, according to the European preventive cardiology guidelines. The inclusion of partners and family members underpinned EUROACTION's emphasis on family support and a shared commitment to heart-healthy living.
- Significant improvements were observed not only in EUROACTION patients but also in their partners, compared to usual care in other hospitals and general practices, across the key lifestyle and risk factors: diet (fruit and vegetable, saturated fat and oily fish intake), physical activity, central obesity, blood pressure, cholesterol and glucose. The administration of cardio-protective medication was also improved.
- Professor David Wood, Chairperson of EUROACTION comments, “With current treatment failing too many cardiovascular patients across Europe, EUROACTION has stepped up to the professional challenge of translating scientific evidence into effective care. Prevention guidelines are very difficult to implement, but the EUROACTION approach sets a new standard for preventive care across Europe which all hospitals and general practices can achieve.”
