2002 "Altered fibrin clot structure in the healthy relatives of patients with premature coronary artery disease" *Circulation*: 2002 Oct 8;106(15): p1938-42

I have published numerous peer-reviewed papers concerning metabolic syndrome, coagulation and fibrinolysis, cardio-respiratory exercise and heart failure.

I have presented more than a dozen abstracts at national and international symposia.

I have produced a book chapter for Hypertension & Diabetes.

Current Position & Responsibilities:

Consultant Cardiologist & Interventional Cardiologist, Liverpool Heart & Chest Hospital
(1 in 10, on-call for primary PCI)

Cardiac Lead for Cheshire & Mersey Strategic Clinical Network

Clinical Lead for Primary-care / Knowsley community cardiovascular service

Clinical Lead for Cardiac Rehabilitation

Clinical Lead for Advancing Quality in Myocardial Infarction

Chair of Medication Errors Review Committee

Co-Chair of Primary PCI Implementation & Steering Group

I work as part of a team of ten interventional cardiologists delivering an elective, urgent and emergency PCI service for the 2.2 million surrounding population of Merseyside, North Wales, Cheshire and the Isle of Man. I am also involved in delivering a programme of Trans-catheter Aortic Valve Implantation (TAVI) and am medical director for our local ALS courses. My day-to-day activities also include running a rapid-access angina / new onset chest pain service and the Knowsley community cardiovascular service. The quality outcomes of the community service are principally judged in relation to NICE guidelines and this service won the "Productivity & Quality" Health Services Journal award in 2011.

Previous Appointments:

SpR in Cardiology: 2006-2007: Wythenshawe Hospital, Manchester

Interventional Fellow: 2006: Bergen, Norway (6 months)

SpR in Cardiology: 2001-2006: Cambridge (Eastern Region rotation)

British Heart Foundation research fellowship: 1998-2001: Leeds

SHO general medical rotation: 1996-1998: Leeds

SHO accident & emergency medicine: 1995: Norwich (6 months)
HO in medicine and surgery: 1994-1995: Cambridge and Huntingdon
