---

### Short CV

Currently Dr Georges A. Saade is:

- Clinical Associate Professor of Medicine, Lebanese University Beirut, Lebanon
- Chair of the CVD prevention Working Group in the Lebanese Society of Cardiology
- Fellow of the European Society of Cardiology
- Fellow of the American College of Cardiology
- Consult Cardiologist at the University Medical Centre Bellevue Medical Centre Lebanon

From 2001-2007, as Director of the Cardiovascular Disease Prevention Program, he was primary working on developing a national strategy for prevention of CVD at the World Health Organization.

He developed a national health policy, conducting research on CVD risk factors prevalence and producing clinical guidelines, Hypertension guidelines, and Acute Coronary Syndrome guidelines.

He has published over 30 scientific manuscripts, including original research, case reports and abstracts.
