Christodoulides T, Ioannides M, **Yiangou K**, Nicolaidis E. J Cardiovasc Med 2012 Jul; 13(7)465-467

5. Received Impact Factor(s) : Year / IF

Elections to the Board 2014-2016

6. Received Hirsch Index : Year / Index

7. Why are you interested in joining the EACVI Board (150 words max)?

New knowledge, development and improvement in echocardiography and imaging field in general are mainly led and determined by the contribution of colleagues from larger countries, where sources, means and infrastructure are supportive.

By representing a smaller country, follower of this evolution, I would raise all our concerns and considerations but at the same time I would strongly declare our deep enthusiasm, willingness to participate, to collaborate, to share with the leading countries. Strengthening the link between our **countries will enhance EACVI's recognition and mutual synergy spirit.**

Contribution on education, joint scientific and research meetings, understanding of the needs and worries of young cardiologists, grants and support should continue to be of utmost importance for EACVI.

I will work with all my power, passion and enthusiasm towards these aims and targets.
