

Martine Gilard

Country : France

Application for the following position in the EAPCI Board:

PRESIDENT-ELECT

Current position

Chair of the Fellowship committee of EAPCI

Profession

- + Interventionalist
- Healthcare Professional (Nurse, Radiographer, Technician) working in PCI
- Industry Professional
- Other

Additional Information

- + Fellow of the ESC
- + EAPCI Member
- + Member of another ESC Association (beyond EAPCI)
If yes, specify: Member of the Nominating Committee of ESC

- + Active in an ESC Member Country

If yes, specify your country of work:FRANCE

- + Member of a National Cardiac Society

If yes, specify: French Society Of Cardiology

- + Member of an Interventional Working Group

If yes, specify: GACI: French working group of interventional cardiology

General CV (as it pertains to PCI) – 300 words max

Place and Date of Birth

15 July 1956 Casablanca (Maroc)

Present Position and Address

- Professor of Cardiology, department of Cardiology, University hospital of Brest 29200 Brest France
- Director of interventional cardiac unit of University Hospital of Brest
- Director of Cardiac MRI and Cardiac MSCT unit of University Hospital of Brest

Training and Education

- Training in University Hospital Cochin of PARIS: 1976-1982
- Training in University Hospital of Brest:1982-1990
- Training in Washington hospital Center of Washington:2001

Post Graduate Degrees

- Specialized post-graduate certificate in Cardiology: 1986
- Specialized post-graduate certificate in Radiology :1988
- Post graduate diploma: Signals and Images in Biology and Medicine. Master's thesis:2002
- Medical Doctorate State diploma (MD):1986
- University Doctorate State Diploma (PhD):2010
-

European Society of Cardiology Activities

- Fellow of the European Society of Cardiology: since 2002
- Chairperson and then member of Education committee of EAPCI: since 2009
- Chair of the Fellowship committee of EAPCI since 2016
- Member of the Working group of NUCLEAR CARDIOLOGY and MSCT
- Member of the nominating committee of ESC since 2016

Other International Scientific Committee Participation

- Member of the French Society of Cardiology since 1989
- President elect of the Group “Coronary Atheroma and Interventional Cardiology” of the French Society of Cardiology: 2010-2011
- Member of the board of the French Society of Cardiology: since 2011
- President elect of the French Society of Cardiology in 2015
- Member of the PCR board: steering committee: since 2011

Previous experience in EAPCI, ESC or your National Bodies

Specifically, please indicate if you hold an Executive position (President, Vice President, President Elect) in a National Cardiac Society or in the ESC. If so, please indicate which one as well as the term of this position.

I am currently President elect of the French Society of Cardiology. I will be President from 2018 to 2019 included. It implies that in 2020, I will not be President of the French Society of Cardiology any longer.

If you have been involved in EAPCI in the past, please specify the position(s) as well as the relevant date(s)

In particular, please indicate if you served in:

- *EAPCI Board 2016-2018 (under M. Haude’s leadership)?* Yes

- *EAPCI Board 2014-2016 (under S. Windecker's leadership)?* Yes
- *EAPCI Board 2011-2014 (under J. Fajadet's leadership)?* Yes
- *EAPCI Board 2009-2011 (under C. Di Mario's leadership)?* Yes
- *EAPCI Board 2006-2009 (under W. Wijns' leadership)?*
No

If you answered yes to at least one of these questions, please provide details.

2009-2011 Chair Training Committee

Stent for Life France : Champion

2011-2014 Co-Chair EAPCI Education & Training Committee

Co-Chair EAPCI editorial Committee

Stent for Life France : Champion

2014-2016 Co-Chair EAPCI Fellowship Committee

Member EAPCI Education & Training Committee

Member EAPCI Women Committee

Valve for Life France Champion

2016-2018: Chair EAPCI Fellowship Committee

Member EAPCI Women Steering Committee

Valve for Life France Champion

What would you like to achieve if you were elected?

I have a strong belief in the value of the EAPCI. This is why I have for many years volunteered in our association, first as Chair and member of its Educational Committee since 2009 and, for the last two years, as Chair of the Fellowship Committee. We need a strong association to advocate the role of our specialty toward European, national and local administrations. We need EAPCI to foster independent scientific exchange and education, and to promote quality through accreditation. We need to set up virtual and real-life meeting places where we can come together, discuss new ideas, and feel part of an effective community in a world that has a tendency to forget that unity creates strength and prosperity.

I already have a number of themes for the EAPCI for the coming years.

- I want to be in a smooth continuity of action with the previous presidents and boards.

-Full commitment to the Education Program by developing the VITAL principles and PCR seminars in local languages. We also need to strengthen the Fellowship Programs. It is our duty and privilege to work with our industrial partners on subjects of education and innovation, but our scientific independence is our primary asset.

-Promoting the active involvement of young and female colleagues in the EAPCI, through working groups, with caps on consecutive terms in Committee positions.

- Listening to and acting upon suggestions and questions from national Working Group delegates, particularly at the EAPCI Spring Summit.

- In collaboration with the national Working Groups, setting up short-term registries dedicated to critical issues.

-Strong involvement of the EAPCI in drawing up ESC guidelines and consensus papers on specific medical devices and treatments. At European level, I intend to advocate in favor of the patient's information and access to the treatments recommended in the guidelines, and to fight against inequality in access to care.

I would consider it a great honor to have your confidence in leading the EAPCI for the coming years 2020 and 2021. I greatly look forward to it, with your support!

If you were elected, how do you envisage to organize yourself to accommodate this very demanding additional commitment?

Since 2016, I have been President-Elect and in 2018-19 will be President of the French Society of Cardiology. I have learned how to organize my working life in the University of Brest so as to be able to carry on performing cardiac procedures, consultations and imaging without skimping on any of my commitments in our scientific Society.

My intention is to be fully responsive to your ideas, suggestions, remarks or even complaints, and to have these always be at the center of my preoccupations. My team in Brest assures me of their full support in this.
