ADDITIONAL INFORMATION

- **Your profession**

- Interventionalist
- Healthcare Professional (Nurse, Radiographer, Technician) working in PCI
- Industry Professional
- Other – please specify

- **Are you a fellow of the ESC?** **Yes**
- **Are you a member of EAPCI?** **Yes**
the member of the Education Committee
- **Are you member of a National Society?** **Yes**
Cardiology Society of Serbia
- **Are you member of an Interventional Working Group?** **Yes**
Interventional WG of Cardiology Society of Serbia

N.B: Letter(s) of support from any relevant group are welcome

Letter of support provided to the Chairman of Nominating Committee by Prof. Miodrag Ostojic, President of Interventional WG of Cardiology Society of Serbia

GENERAL CV (as it pertains to PCI) (300 words max)

I am the Associate professor of internal medicine at the Belgrade University Medical School, Head of Department for invasive diagnostics of Division of Cardiology, Clinical Centre of Serbia. During the period 2000-2003 I worked in Columbus and San Raffaele Hospitals in Milan, with position of Research Coordinator.

I serve as co-editor of the Cardiology International, and Editorial board member of: JACC, Cardiology International, JAMA-Serbia and Montenegro and Serbian Archives of Medicine and as a reviewer for 14 CC Journals. From 2005 to 2009 years I was elected as Elite Reviewer of JACC. In 2009 I received Simon Dack Award for Outstanding Scholarship from the American College of Cardiology Foundation. I was a member of the Scientific Committee of Serbian Cardiology Congresses in 2003, 2005, 2007 and 2009 and Faculty member on 41 foreign congresses. I had 61 invited lectures and was moderator at 25 international workshops at the field of interventional cardiology dedicated mainly to treatment of bifurcation lesions.

I am a member of Serbian Medical Association, Cardiology Society of Serbia, the American College of Cardiology (since 2005 - FACC), European Society of Cardiology (since 2003 - FESC) and the European Association for Percutaneous Coronary Interventions (since 2007), where I'm the member of the Education Committee. I'm one of founding members of European Bifurcation Club and the member of Japanese Bifurcation Club.

I am a member of the Committee for creation and implementation of guidelines for good clinical practice in Serbia.

I published as author or co-author more than 100 scientific papers and was located in a group of 20 researchers with the highest impact factor in the Serbian Ministry of Science and Technology Development. In addition, I published as a co-editor with Dr. Antonio Colombo 3 books in the field of interventional cardiology and wrote chapters in 18 books, textbooks and monographs.

1. Stankovic G, Manginas A, Voudris V, Pavlides G, Athanassopoulos G, Ostojic M, Cokkinos DV. Prediction of restenosis after coronary angioplasty by use of a new index: TIMI frame count/minimal luminal diameter ratio. *Circulation* 2000;101:962-8

Incidence, predictors, and outcome of thrombosis after successful implantation of drug-eluting stents. *JAMA*. 2005;293:2126-30;

What would you like to achieve if you were elected? (150 words max)?

- Bring positive spirit of cooperation and friendship between Working Groups of national societies participating in EAPCI;
- Ensure a transparent process for the development of future EAPCI programs;
- Actively participate in all activities of the Association: developing guidelines, supporting smaller Working Groups and basic science, awarding fellowships, preparing the certification platform for subspecialty training;
- Promote and help implementation of the Stent for life project in European countries;
- Try to involve more interventionalists from eastern European countries in EAPCI activities, especially in education and training programs;
- Continue collaboration with the President and Board members of EAPCI which had already been started during program preparation of several previous EuroPCR meetings;
