

## **EHRA Health Economics Committee**

### **1. Committee**

Francisco Leyva (UK), Chair  
Frieder Braunschweig (Sweden), Vice-Chair  
Dietrich Andresen (Germany)  
Martin Cowie (UK)  
Catherine Klersy (Italy)  
Georges H Mairesse (Belgium)

### **2. Mission**

To raise awareness amongst physicians and allied medical professionals of the health economic issues in the field of electrophysiology (EP) and device therapy.

### **3. Objectives**

- a) Contribute to education relating to the health economic aspects of electrophysiology and device therapy
- b) Work with the Scientific Documents Committee to provide Health Economics information that is relevant to Guidelines, Position Statements and Consensus Statements.
- c) Provide original articles linking EP and device therapy to 'real-world' health outcomes and health economics.
- d) Work with Industry on the Health Economics of EP and device therapy.
- e) Maintain impartiality on Health Economics issues that relate to EP and device therapy.

### **4. Job Descriptions**

**CHAIR ´S JOB DESCRIPTION [anticipated time: 4 hours/week]**

**CO-CHAIR ´S JOB DESCRIPTION [anticipated time: 3 hours/week]**

To pursue the above objectives in collaboration with the committee chair Francisco Leyva.

**COMMITTEE MEMBERS´ JOB DESCRIPTION [anticipated time: 2 hours/week]**

Members are expected to contribute to the proposed tasks on an ad hoc basis. The Chair and Co-Chair will be expected to contribute at least 4 hours per week, whilst members will be expected to contribute at least 2 hours per week. Time allocation will depend on the demand to contribute to the various tasks. Contribution to these tasks rather than membership of the EHRA HEC will secure authorship in resulting publications.

### **ANTICIPATED TIME**

The time spent on committee task has been largely variable since it is linked to projects. Hitherto on average 2h but larger projects are planned to be worked on later this spring.
