EBAC accreditation

Common Educational Framework

- Could it be interesting to create a common educational framework with national WG's?
- How can it be done?
- Who is going to fund it?

EHRA device courses and EP courses

- Deliver some additional EHRA courses at certain locations, in agreement with national WG, supported by national WG, with national as well as international speakers

www.escardio.org/EHRA

EHRA affiliated courses

- Up until now reserved for industry
- Could be expanded to accommodate local teaching
 - at the level of the NS
 - at the level of a regional organiser
 - at local universities / hospitals
- **?Future: “EHRA Institute for Continuous Education”**
 - With funding through hospital administrations, regulatory authorities, insurance companies, ...

www.escardio.org/EHRA

We are all EHRA!

- Understand the needs and expectations of national organizations. Guide education
- Create a specific meeting to discuss with each national groups
- Target the population: fellows, allied professionals, clinical, etc.

www.escardio.org/EHRA

Specific recommendations

- Detailed de curriculum and competency
- Stronger links between national educational activities and EHRA
- Credit system to fullfil a number of credits
- Educational Council meeting
- Regional courses affiliated
- Industry courses integrated in framework
