

ANNUAL REPORT 2009-2010

Part 1: Working Group on: Cardiovascular Surgery

Nucleus composition (precise name, surname and country):

Chairperson: Miguel Sousa Uva
Vice-chairperson: David Taggart
Past chairperson: P Nataf
Treasurer: L Torraca
Secretary: V Falk
Web editor: N Al Attar

Nucleus Members:

Anton Moritz
Sidney Chocron
Michael A Borger
Adelino leite Moreira
marianZembala
Gideon Uretsky
Raimondo ascione
Ottavio Alfieri
Claudio Muneretto
Oztekin Oto

Part 2: Activities of the WG during the year

Meetings

- ▶ WG Annual Meeting: Lisbon, May 7-8 2010 (**see attached Minutes**)
- ▶ Endorsed Meeting(s)
- ▶ Education programme(s) – Training, Courses & Grants

Papers & Guidelines

- ▶ Guideline participation (writing or reviewing)
During my tenure as Chairman of the Cardiovascular Surgery WG, our WG has been actively involved in the elaboration of several ESC Guidelines: Cardiac Risk Assessment, Atrial Fibrillation, Grown up Congenital Heart Disease, Myocardial Revascularization, Pregnancy, Non ST segment elevation ACS, Acute Heart Failure and ST segment elevation ACS.
- ▶ WG officially affiliated to a journal? Which one? No

Sessions

- ▶ (for sessions, please precise titles and accepted/rejected status):
- ▶ Proposals for pre-arranged sessions at the ESC main congress and/or ESC Sub-specialty meetings

Revascularisation in coronary artery disease in 2010: Accepted

Bleeding and Transfusion Impair Short- and Long-Term Clinical Outcome after CABG
Peri-Operative Antithrombotic Strategies in Patients with ACS
Ways to Improve CABG: Off-Pump Surgery, Pre-and Post-Operative Statins, Post-Operative Antiplatelet Therapy
Multivessel and Left Main Disease: Indications for Surgery and Coronary Intervention
2010

Antiplatelet and antithrombotic therapy in patients referred for coronary artery bypass grafting: Accepted

Dual Antiplatelet Therapy and “Triple” Therapy after Stenting: Indications, Efficacy and Safety
Which Cardiac and Non-Cardiac Surgical Interventions Allow Aspirin, Clopidogrel, or Both During the Procedure
Bleeding Complications in Patients Undergoing CABG Are Specific to Antithrombotic Agents: Experience With LMW-Heparin, Bivalirudin, Prasugrel, Ticagrelor and Thrombin Receptor Antagonist

Euro PCR 2010

The Great Debate on TAVI: the journey that transforms brilliant, innovative ideas into daily practice with TAVI as a case example
M Sousa Uva, Chair of the CV surgery WG

Session delivered by Volkmar Falk - 26.-27.05.2010

TAVI: short -and mid term clinical outcome - Introduction PCR, Paris
Patient requiring a second intervention - decision
Transcatheter aortic valve implantation in 2010 - state of the practice - take home message
How to avoid complications in TAVI procedure - how would I treat?
Minimally invasive direct coronary artery bypass surgery (MIDCAB) + Hybrid

Other:

- ▶ **Task Force(s): Myocardial Revascularisation Taskforce has had the participation of M Sousa Uva, D Taggart and V Falk**

Part 3: Future projects / business plan

1-A Position paper on Anti thrombotic therapy for patients scheduled for CABG is in preparation together with the Thrombosis WG

2-Enhance the visibility of our WG by acting as a link between ESC and EACTS

The EACTS Board has invited M Sousa Uva and D Taggart to participate in its Council Meeting at the EACTS annual meeting in Geneva in September to discuss matters relevant to the relationship between the two Scientific Societies.

3- Propose to the CPC 2011 an ESC Named Lecture (The Ake Senning Lecture) on Cardiovascular Surgery
